Definition: The full name of the general locality containing the specific address of an organisation.

Context: In conjunction with the data element Postcode-Australian, the data element Suburb/town/locality name is included as an alternative means of reporting information about the geographic location of an agency/establishment. The preferred standard for reporting this information is by using a statistical local area (SLA) in conjunction with a State/Territory code.

Suburb/town/locality name may also be a component of a postal address.
