Specialised mental health service—residual expenditure (superannuation), total Australian currency N[N(8)]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Residual expenditure (mental health service)—superannuation
METEOR identifier:	290158
Registration status:	Health , Superseded 16/01/2020
Definition:	Expenditure in Australian dollars by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It includes superannuation employer contributions paid, or for an emerging cost scheme, that should be paid on behalf of the employee and that are not reported elsewhere. Emerging cost schemes are those in which the cost of benefits is met at the time a benefit becomes payable, that is, there is no ongoing invested fund from which benefits are paid.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Specialised mental health service—residual expenditure (superannuation)
METEOR identifier:	295543
Registration status:	Health , Standard 08/12/2004
Definition:	Expenditures by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It includes superannuation employer contributions paid, or for an emerging cost scheme, that should be paid on behalf of the employee and that are not reported elsewhere. Emerging cost schemes are those in which the cost of benefits is met at the time a benefit becomes payable, that is, there is no ongoing invested fund from which benefits are paid.
Context:	Specialised mental health service: to improve and substantiate financial reporting in relation to residual mental health care expenditure and assist in understanding differences in costs for similar specialised mental health service in different states or territories and regions, where these cost differences are due to differences in the extent to which support services and other services to residents/admitted patients and outpatients of an organisation or service unit may be provided by the organisation or service unit itself or by other bodies
Object class:	Specialised mental health service
Property:	Residual expenditure

Definition: Total number of Australian dollars.

Representational attributes

Representation class: Total
Data type: Currency
Format: N[N(8)]
Maximum character length: 9
Unit of measure: Australian currency (AU\$)

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: Excludes grants to non-government organisations for services that are to be reported separately. These are grants for accommodation services, advocacy services, community awareness services, counselling services, independent living skills support services, pre-vocational training services, psychosocial support services, recreational services, respite services, self-help support group services and other unspecified services grants.

Collection methods: Residual mental health expenditure is to be reported only at the level at which the expenditure occurred (state/territory, region or organisational), and should not be counted at more than one level. Expenditure should be reported for these categories, where applicable.

Note: Superannuation expenditure already included in establishments expenditure should not be included in this data element.
