4	Questionnaire - telephone interview on exit																		
5	Questionnaire - periodic written survey																		
6	Questionnaire - written survey on exit																		
7	Feedback focus group																		
8	Other																		

Data element attributes

Collection and usage attributes

Guide for use:

The active and routine collection of feedback means that, as a matter of routine, the agency initiates and implements feedback methods and does not rely on mechanisms such as ad hoc comments, ad hoc questionnaires, informal debriefing sessions, or similar casual arrangements.

Active methods include the use of periodic questionnaires that are implemented through either face-to-face interviews, by telephone or by mail, focus groups aimed at collecting feedback from the participants, established debriefing sessions, or other routine procedures the agency has in place to collect feedback.

The aim of the method used must be to collect feedback on services and service delivery.

'Periodic' may mean at set intervals or at (a) specified points in time during the service episode.

'On exit' refers to the closure of the service episode (for clients or related people), or (for staff) the time at which the staff member ceases to be employed by the agency.

CODE 7 Feedback focus group

An in-depth qualitative interview with a small number of persons, held specifically to collect feedback from the participants.

Collection methods:

More than one code can be recorded.
