Data element attributes

Collection and usage attributes

Guide for use:	Australian dollars. Rounded to the nearest whole dollar.
Collection methods:	<p>Other patient revenue funded expenditure to be reported only once and for the specific statistical unit level at which the expenditure actually occurred e.g. at the State, regional or organisational level.</p> <p>Note: this excludes expenditure funded by Department of Veterans' Affairs payments in respect of specific patients, or funded by the Commonwealth nursing home or hostel subsidies which should be reported in Department of Veterans' Affairs funded expenditure or Commonwealth Government funded expenditure respectively.</p> <p>Where other patient revenue funded expenditure could be allocated to more than one level, it is important to allocate it to the single most appropriate statistical unit level to avoid the possibility of counting the expended funds more than once. For example, funding provided for service delivery expenditure should be reported at the lowest statistical unit level possible only.</p>
