### Collection and usage attributes

**Guide for use:**

The main components of gross income are:

- current usual wages and salary;
- income derived from self-employment;
- government pensions, benefits and allowances; and
- other income comprising investments (including interest, dividends, royalties and rent) and other regular income (including superannuation, private scholarships received in cash, workers' compensation, accident compensation, maintenance or alimony, and any other allowances regularly received).

Gross income is regarded as all receipts which are received regularly and are of a recurring nature. Certain receipts such as lump sum receipts, windfall gains and withdrawals from savings are not considered to conform to these criteria and are not included as income.

Please note that this data element is not consistent with the ABS standards for cash income.

**DSS specific information:**

For data collection using Computer Assisted Telephone Interviewing (CATI), the suggested question is:

I would now like to ask you about your household's income. We are interested in how income relates to health, lifestyle and access to health services.

Before tax is taken out, which of the following ranges best describes your household's income, from all sources, over the last 12 months?

(Read options: Single response)

Less than \$ 20,000

\$ 20,000-\$ 30,000

\$ 30,001-\$ 50,000

\$ 50,001-\$ 100,000

More than \$ 100,000

Don't know/not sure

Refused

Where narrower ranges are required, household annual gross income may be collected in \$ 10,000 ranges using the data element Household annual gross income range (\$ 10,000 range).
