Community housing provider—funding source

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	292095
Registration status:	Housing assistance, Standard 10/02/2006
Definition:	The source(s) of funding for the provision of housing assistance that a community housing provider receives.
Context:	Sustainability/viability of sector

Object Class attributes

Identifying and definitional attributes

Object class:	Community housing provider
Definition:	A not-for-profit organisation that provides safe, secure, affordable and appropriate rental housing.
Context:	Community housing, along with public rental housing, is part of the social housing sector and provides housing assistance on a basis which is respectful of tenants rights, including opportunities for participatory management, and constructive of links with community development. Community housing can cover short, medium and long-term tenancies. Community housing providers manage the provision of housing assistance and as such are the main source of information about the tenants in the community housing sector. Community housing providers may include: • housing cooperatives • housing associations • other community service organisations
Specialisation of:	Organisation
