# Service provider organisation—most common service delivery setting, code N

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Element
<b>Short name:</b>	Most common service delivery setting
<b>METEOR identifier:</b>	297708
<b>Registration status:</b>	<a href="#">Health</a> , Retired 02/12/2015
<b>Definition:</b>	The setting in which the service provider organisation most commonly delivers services, as represented by a code.
<b>Data Element Concept:</b>	<a href="#">Service provider organisation—most common service delivery setting</a>
<b>Value Domain:</b>	<a href="#">Most common service delivery setting code N</a>

## Value domain attributes

## Representational attributes

<b>Representation class:</b>	Code
<b>Data type:</b>	Number
<b>Format:</b>	N
<b>Maximum character length:</b>	1

	Value	Meaning
<b>Permissible values:</b>	1	Mostly community-based setting
	2	Mostly inpatient setting
	3	Similar proportion in both settings

## Collection and usage attributes

<b>Collection methods:</b>	Record only one code.
----------------------------	-----------------------

## Data element attributes

## Collection and usage attributes

**Guide for use:****CODE 1** Mostly community based setting

During the past 12 months, more than 60% of service delivery time was estimated to have been spent on delivering services to, and on behalf of, clients in community settings. This includes residential settings such as private residences (including caravans, mobile homes, houseboats or units in a retirement village), residential aged care facilities, prisons, and community living environments (including group homes); and non-residential settings such as day respite centres or day centres. It includes hospital outreach services and outpatient settings where these are delivered in the community setting.

**CODE 2** Mostly inpatient setting

During the past 12 months, more than 60% of service delivery time was estimated to have been spent on delivering services to, and on behalf of, clients in inpatient settings. This includes hospitals, hospices or admitted patient settings. It excludes services delivered in outpatient settings and hospital outreach services delivered in the community setting.

**CODE 3** Similar level in both settings

During the past 12 months, a similar proportion of service delivery time (between 40-60%) was estimated to have been spent on delivering services in community and inpatient settings.

**Collection methods:**

Record only one code.
