Data Element Concept:	Person—gross income

Value domain attributes

Representational attributes

Representation class:	Total
Data type:	Currency
Format:	N[NNNNN].NN
Maximum character length:	8
Unit of measure:	Australian currency (AU\$)

Collection and usage attributes

Guide for use:	This value domain must be expressed to two decimal places. Where there is a dollar value and no cent value, the cents must be expressed as .00 (e.g. 100.00).
-----------------------	---

Data element attributes

Collection and usage attributes

Guide for use:

The main components of gross income are:

- wages and salary
- income derived from self-employment
- government pensions, benefits and allowances
- other income comprising investments (including interest, dividends, royalties and rent) and other regular income (including superannuation, private scholarships received in cash, workers' compensation, accident compensation, maintenance or alimony, and any other allowances regularly received).

Gross income is regarded as all receipts which are received regularly and are of a recurring nature. Certain receipts such as lump sum receipts, windfall gains and withdrawals from savings are not considered to conform to these criteria and are not included as income.

Where household or income unit gross income is required, the gross income of each person is summed.
