Data element attributes

Collection and usage attributes

Collection methods: Count bedrooms designed for use as bedrooms and other rooms permanently modified and intended for use as bedrooms (such as a sleep out or built in veranda). Bedsits should be counted as a 1 bedroom dwelling. In the case of **boarding house buildings**, the unit of counting is the **boarding house room** which usually has only one bedroom.

Where reporting the number of bedrooms at the tenancy level, the number of bedrooms should be reported for each tenancy rental unit.
