Household—rebated rent status, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Rebated household status
METEOR identifier:	302581
Registration status:	Housing assistance , Superseded 30/08/2017
Definition:	Whether the household receiving housing assistance who as part of the assistance, pay less than the market rent value of the dwelling, as represented by a code.
Data Element Concept:	Household—rebated rent status
Value Domain:	Yes/no/not stated/inadequately described code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use:	CODE 9 Not stated/inadequately described
	This code is not for use in primary data collections.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use: **Code 1 Yes:** record if the household receiving housing assistance who as part of the assistance, pay less than the market rent value of the dwelling.

Code 2 No: record if the household receiving housing assistance who as part of the assistance, do not pay less than the market rent value of the dwelling.

For example, a public housing dwelling may be assessed as having a market rent value of \$200 per week. On assessing the applicant household though, the State housing authority calculates that this household should pay no more than \$100 per week on rent. If this household is then allocated to this dwelling with a rent of \$100, (while the market rent value is \$200), then the household is considered to be rebated.

Collection methods: For those jurisdictions who use a 'full rent' concept, a rebated household is one which pays less than full rent.
