Guide for use:	This metadata item should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, the date July 1 2002 should be recorded as 01072002.
Collection methods:	<p>If the date the dwelling was vacated by tenants is not known, for example, abandonment by tenants, the date the dwelling is discovered to be vacant should be used instead.</p> <p>The <i>Dwelling-date vacated</i>, DDMMYYYY may not be the same as the <i>Housing service episode-assistance completion date</i>, DDMMYYYY as tenants may move out of a dwelling before the <i>Dwelling-date vacated</i>, DDMMYYYY.</p>
