Mental health establishments NMDS 2005-06

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	311875
Registration status:	Health , Superseded 21/03/2006
DSS type:	National Minimum Data Set (NMDS)
Scope:	All specialised mental health services managed or funded by State or Territory health authorities. The statistical units are specialised mental health services. These are the specialised mental health components of the State and Territory health authorities, and of regions within states and territories; specialised mental health service organisations; service units within those organisations; and private hospital and non-government residential service units funded by specialised mental health services. Non-government residential mental health services and specialised mental health services provided by private hospitals that receive State or Territory government funding are included as service units for this NMDS. In addition, information on funding of non-government organisations by non-health departments for the provision of mental health services is collected through a specific data element. Ambulatory services managed by non-government organisations are not defined as statistical units for this NMDS. The data elements relevant to each of these types of statistical unit differ, as detailed below. States and Territories determine the organisational units that will report as 'regions', 'organisations', and 'service units' for this NMDS. However, as a minimum, each hospital reported to the Public Hospital Establishments NMDS should be defined as a service unit for the purposes of this NMDS and should use the same establishment identifiers in this NMDS as are used in the National Public Hospital Establishments NMDS. In addition, as a minimum, 24 hour staffed residential services and non-24 hour staffed residential services should be defined as separate service units.

Collection and usage attributes

Statistical unit:	Specialised mental health services.
Collection methods:	<i>National reporting arrangements</i> State and Territory health authorities provide the data to the Australian Institute of Health and Welfare for national collation, on an annual basis. <i>Periods for which data are collected and nationally collated</i> Financial years ending 30 June each year.
Implementation start date:	01/07/2005
Implementation end date:	30/06/2006

Comments:*Private hospitals and non-government organisation residential services*

Only the following data elements are mandatory for non-government organisation residential mental health services and specialised mental health services provided by private hospitals that receive State or Territory government funding: Accrued mental health care days, Co-location status of mental health service, Geographical location of establishment, Establishment identifier, Number of available beds for admitted patients, Number of episodes of residential care, Separations, Specialised mental health services—hours staffed and Total recurrent expenditure.

For these services it is not mandatory to disaggregate data elements by Specialised mental health services program type or Specialised mental health services target population where specified.

Non-residential non-government organisation mental health services

Information on the total expenditure (\$) on non-residential non-government organisation mental health services (i.e. the 'grants to non-government organisations' data elements) by service type (e.g. accommodation services) is to be reported where available, but is also not mandatory.

Glossary items

-	State or Territory Government—mental health services grants to non-government organisations by non-health departments, total Australian currency N[N(8)]	Mandatory	1
---	--	-----------	---

DSS specific information:

Do not include grants made by the state or territory health departments.

Do not include grants to non-government organisations for provision of staffed residential services.

Activities or programs for which the grant has been provided must have a primary function of providing treatment, rehabilitation or community health and related support and information services for people with a mental disorder or psychiatric disability, their carers or the broader community. These include accommodation, advocacy, community awareness, health promotion, counselling, independent living skills, psychosocial, recreation, residential, respite and self-help services. Mental health-related research is excluded. These may include, for example, a coordinated approach to service provision for people with a mental disorder or psychiatric disability for which most funding is provided by the state or territory health department, but some funding provided by other agencies, such as housing.

Grants are only to be reported at the state or territory level and should not be reported at any other level.
