DSS specific information:

In the Children's Services NMDS, this refers to the days of the week that a child care or preschool service is available for children to use at a service in the collection week.

This metadata item is an indicator of availability of child care and preschool services. The number of days per week that a service is available for children can be derived from this item.

This metadata item will be used to gain a greater understanding of patterns of service delivery. It may be used in conjunction with the data elements Start time and Finish time of sessions to measure of the accessibility of child care and preschool services.

This metadata item should be reported in a table, in conjunction with Start time and Finish time for each day of the week on which the service operates in the data collection week.
