# Body structure code (ICF 2001) AN[NNNN]

## Identifying and definitional attributes

<b>Metadata item type:</b>	Value Domain
<b>METEOR identifier:</b>	320644
<b>Registration status:</b>	<a href="#">Community Services (retired)</a> , Standard 16/10/2006 <a href="#">Health</a> , Standard 29/11/2006 <a href="#">Disability</a> , Standard 13/08/2015
<b>Definition:</b>	A code set representing the <b>Body Structures</b> component of the International Classification of Functioning, Disability and Health (ICF 2001).
<b>Context:</b>	Human functioning and disability.

## Representational attributes

<b>Classification scheme:</b>	<a href="#">International Classification of Functioning, Disability and Health 2001</a>
<b>Representation class:</b>	Code
<b>Data type:</b>	String
<b>Format:</b>	AN[NNNN]
<b>Maximum character length:</b>	6

## Collection and usage attributes

**Guide for use:**

This metadata item contributes to the definition of the concept [disability](#) and gives an indication of the experience of disability for a person.

Data can be collected at the three digit level in one chapter and at the chapter level in another. However it is only possible to collect data at a single level of the hierarchy in a single chapter to maintain mutual exclusivity. For example, it is not permitted to collect both 'Skin and related structures' (chapter level) and 'Structure of nails' (3 digit level) as the former includes the latter.

The value domain below refers to the highest hierarchical level (ICF chapter level). Data collected at this level, in association with respective qualifiers (*Impairment extent code N, Impairment nature code N, Impairment location code N*) will use the codes as indicated.

CODE s1 Structures of the nervous system  
CODE s2 The eye, ear and related structures  
CODE s3 Structures involved in voice and speech  
CODE s4 Structures of the cardiovascular, immunological and respiratory systems  
CODE s5 Structures related to the digestive, metabolic and endocrine systems  
CODE s6 Structures related to the genitourinary and reproductive systems  
CODE s7 Structures related to movement  
CODE s8 Skin and related structures

Data collected at this level will provide a general description of the structures and can only be compared with data collected at the same level.

Each chapter contains categories at different levels ordered from general to detailed. For more detailed information the user should follow the structure of the ICF; the codes should be drawn from the same hierarchical level within any particular chapter. The full range of permissible values together with definitions is listed in the [Body Structures](#) component of the ICF.

An example of a value domain at the 3 digit level from the Structures of the nervous system chapter may include:

CODE s110 Structure of the brain  
CODE s120 Spinal cord and related structures  
CODE s130 Structure of the meninges  
CODE s140 Structure of sympathetic nervous system  
CODE s150 Structure of parasympathetic nervous system  
CODE s198 Structure of the nervous system, other specified  
CODE s199 Structure of the nervous system, unspecified

An example of a value domain at the 4 digit level from the Structures related to movement chapter may include:

CODE s7300 Structure of upper arm  
CODE s7301 Structure of forearm  
CODE s7302 Structure of hand  
CODE s7500 Structure of thigh  
CODE s7501 Structure of lower leg  
CODE s7502 Structure of ankle and foot  
CODE s7600 Structure of vertebral column

The prefix **s** denotes the domains within the component of *Body Structures*.
