Person—communication method, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Communication method
METEOR identifier:	322186
Registration status:	Community Services (retired) , Superseded 27/04/2007
Definition:	The method of communication, including sign language, most effectively used by the person, as represented by a code.
Context:	Method of communication is an important indicator of potential barriers to social inclusion, particularly in conjunction with data on country of birth and interpreter services required.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—communication method
METEOR identifier:	269643
Registration status:	Community Services (retired) , Standard 01/03/2005 Disability , Standard 07/10/2014
Definition:	The method of communication, including sign language, most effectively used by the person.
Object class:	Person
Property:	Communication method

Value domain attributes

Identifying and definitional attributes

Value domain:	Communication method code N
METEOR identifier:	320907
Registration status:	Community Services (retired) , Superseded 27/04/2007
Definition:	A code set representing methods of communication.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
Permissible values:	Value	Meaning
	1	Spoken language (effective)
	2	Sign language (effective)
	3	Other effective non-spoken communication (e.g. Canon Communicator, Compic)
	4	Little or no effective communication

	5	Child aged under 5 years (not applicable)
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use: Code 1 and 2

The communication must be effective in that the person must be able to communicate more than just basic needs, to unfamiliar people, using this method.

Code 5 Child aged under 5 years (not applicable)

This item is considered 'not applicable' to young children. Hence, children aged 0–4 years should always be represented by code '5'.

If the communication method varies over time and it is difficult to say what the usual method is, please report the most effective method during the reference week.
