Data element attributes

Collection and usage attributes

Guide for use: Each emergency department stay should include a non-admitted patient emergency department service episode component. The value of the episode end status code should guide the selection of the value to be recorded in this field:

-
-
-
-
-
- If the patient was dead on arrival then record the date of presentation at the Emergency Department.

Collection methods: Collected in conjunction with emergency department stay physical departure time.

Comments: This data element has been developed for the purpose of State and Territory compliance with the Australian Health Care Agreement and the agreed national access performance indicator.
