Value domain attributes

Representational attributes

Representation class:	Identifier
Data type:	Number
Format:	N[N(7)]
Maximum character length:	8

Data element attributes

Collection and usage attributes

Guide for use:	<p>The service type outlet assigns the Record identifier to each completed Service User Form. The Record ID must be numeric and may be an existing service user number used by the service type outlet.</p> <p>This data element, used together with the CSTDA service type outlet identifier, enables identification of a Service User Form without the need to identify an individual by name or other information. In software, this data element can be used to link records.</p>
