Other dataset specific information - Data Set Specification

The following information is applicable to data set specifications only.

Definition

Any additional information relevant to the collection of a data item within the context of a particular data set specification.

Obligation

Optional completion.

Development rules

This attribute is the appropriate place to document any specific information that characterises the inclusion of a data item within a data set specification not covered by the sequence, obligation, maximum occurrences or conditional obligation attributes.

This information should simply and clearly document what other information is relevant to this data set. It may include the rules for subsequent data verification or justification for the collection of a particular data item within the data set specification.
