Episode of residential care start

Identifying and definitional attributes

Metadata item type: Glossary Item

METEOR identifier: 327192

Registration status: [Health](#), Superseded 07/12/2011

Definition: The process whereby the residential care service accepts responsibility for the Resident's residential care and accommodation. Episode of residential care start is the administrative process by which a residential care service records either:

Formal episode of residential care start:

- the start of residential care and accommodation of a resident, and,
- the unplanned return from leave of a resident (when there had been no intention of returning to overnight residential care within seven days);

or Statistical episode of residential care start:

- the start of a reference period for a resident continuing their residential care and accommodation, from the previous reference period.

Context: Specialised mental health services (Residential mental health care).
