# Address (housing assistance)

# Identifying and definitional attributes

**Metadata item type:** Glossary Item

METEOR identifier: 327200

Registration status: Health, Standard 07/12/2011

Housing assistance, Standard 01/03/2005

**Definition:** A place at which a person or organisation may be contacted/located, or where an

object/item or dwelling may be located

or the location where a service may be delivered.

**Context:** Required for primary collection to facilitate contact with the client, person or service

provider.

## Collection and usage attributes

Guide for use: Address is the concatenation of unit number, number, street, city/town, state,

territory, postcode, and country.

Number can refer to a street number, lot number or RMB (roadside mailbox)

number.

**Comments:** There are differences in interpretation of what constitutes a person's 'usual'

address, if this is required. The ABS specifies 'Usual address' to be an address that the person has been living in or is likely to live in for at least six months. Some data collections collect information about the location of client immediately prior to provision of service. This may or may not coincide with the client's usual address.
