# Separation

## Identifying and definitional attributes

<b>Metadata item type:</b>	Glossary Item
<b>METEOR identifier:</b>	327268
<b>Registration status:</b>	<a href="#">Health</a> , Standard 01/03/2005 <a href="#">Independent Hospital Pricing Authority</a> , Qualified 23/11/2015 <a href="#">National Health Performance Authority (retired)</a> , Retired 01/07/2016 <a href="#">Tasmanian Health</a> , Standard 02/09/2016
<b>Definition:</b>	<p>The process by which an episode of care for an admitted patient ceases.</p> <p>A separation may be formal or statistical.</p> <p>Formal separation:</p> <p>The administrative process by which a hospital records the cessation of treatment and/or care and/or accommodation of a patient.</p> <p>Statistical separation:</p> <p>The administrative process by which a hospital records the cessation of an episode of care for a patient within the one hospital stay.</p>
<b>Context:</b>	Admitted patient care.

## Collection and usage attributes

<b>Comments:</b>	<p>This treatment and/or care provided to a patient prior to separation occurs over a period of time and can occur in hospital and/or in the person's home (for hospital-in-the-home patients).</p> <p>While this concept is also applicable to non-admitted patient care and welfare services, different terminology to 'separation' is often used in these other care settings.</p>
