

Neonate

Identifying and definitional attributes

Metadata item type:	Glossary Item
METEOR identifier:	327284
Registration status:	<ul style="list-style-type: none">• Health, Standard 01/03/2005
Definition:	A live birth who is less than 28 days old.
Context:	Perinatal.

Collection and usage attributes

Comments:	The neonatal period is exactly four weeks or 28 completed days, commencing on the date of birth (day 0) and ending on the completion of day 27. For example, a baby born on 1 October remains a neonate until completion of the four weeks on 28 October and is no longer a neonate on 29 October.
