Definition: The smallest level of geography contained in the *Australian Standard*

Geographical Classification (ASGC).

Collection and usage attributes

Comments: The Australian Standard Geographical Classification (ASGC) is a hierarchical

classification system of geographical areas and consists of a number of interrelated structures. It provides a common framework of statistical geography

and enables the production of statistics which are comparable.

The product ASGC 2005 contains four comma delimited files showing the levels

and hierarchy of those ASGC structures current for the edition: the Local

Government Area Structure, the Main Structure, the Statistical District Structure and

the Statistical Region Structure.
