Establishment—number of group sessions

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	336919
Registration status:	Health, Standard 04/07/2007 Independent Hospital Pricing Authority, Standard 01/11/2012
Definition:	The number of groups of patients receiving services. Each group is to be counted once, irrespective of the size of the group or the number of staff providing services.
Context:	The resources required to provide services to groups of patients/clients are different from those required to provide services to an equivalent number of individuals. Hence services to groups of non-admitted patients or clients should be counted separately from services to individuals.

Object Class attributes

Identifying and definitional attributes

Object class:	Establishment
Definition:	Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of:	Organisation

Source and reference attributes

Origin:	National Health Data Committee
