---	---

4	Inability for any physical activity without anginal symptoms
---	--

Supplementary values: 9 Not stated/inadequately described

Collection and usage attributes

Guide for use: Code 1 No angina with ordinary physical activity

Use this code for patients who have no angina on ordinary physical activity such as walking or stair climbing. Angina occurs with strenuous, rapid or prolonged exertion at work or recreation.

Code 2 Slight limitation of ordinary physical activity

Use this code for patients for whom angina occurs on walking or climbing stairs rapidly, walking uphill, walking or climbing stairs after a meal, or under emotional stress, or in the cold, or only during the first few hours after waking.

Code 3 Marked limitation or ordinary physical activity

Use this code for patients where angina occurs walking one or two blocks on the level and climbing one or more flights of stairs in normal conditions and at a normal pace.

Code 4 Inability for any physical activity without anginal symptoms

Use this code for patients who are unable to carry on any physical activity without discomfort - anginal symptoms may be present at rest.

Collection Methods:

Angina status is self-reported by the person but is interpreted, coded and recorded by the health professional.
