Person—angina status, Canadian Cardiovascular Society code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Angina status
METEOR identifier:	338335
Registration status:	Health , Standard 01/10/2008
Definition:	The limitation of physical activity experienced by a person with the onset of angina, as represented by the Canadian Cardiovascular Society code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—angina status
METEOR identifier:	338329
Registration status:	Health , Standard 01/10/2008
Definition:	The category of angina that a person experiences.
Object class:	Person
Property:	Angina status

Value domain attributes

Identifying and definitional attributes

Value domain:	Angina status Canadian Cardiovascular Society code N
METEOR identifier:	338331
Registration status:	Health , Standard 01/10/2008
Definition:	The code set representing the category of angina as defined by the Canadian Cardiovascular Society.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	No angina with ordinary physical activity
	2	Slight limitation of ordinary physical activity
	3	Marked limitation of ordinary physical activity
	4	Inability for any physical activity without anginal symptoms
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use:

Code 1 No angina with ordinary physical activity

Use this code for patients who have no angina on ordinary physical activity such as walking or stair climbing. Angina occurs with strenuous, rapid or prolonged exertion at work or recreation.

Code 2 Slight limitation of ordinary physical activity

Use this code for patients for whom angina occurs on walking or climbing stairs rapidly, walking uphill, walking or climbing stairs after a meal, or under emotional stress, or in the cold, or only during the first few hours after waking.

Code 3 Marked limitation of ordinary physical activity

Use this code for patients where angina occurs walking one or two blocks on the level and climbing one or more flights of stairs in normal conditions and at a normal pace.

Code 4 Inability for any physical activity without anginal symptoms

Use this code for patients who are unable to carry on any physical activity without discomfort - anginal symptoms may be present at rest.

Collection methods:

Angina status is self-reported by the person but is interpreted, coded and recorded by the health professional.
