Person—person identifier, (child protection and support services) NX[X(13)]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Person identifier-child protection and support services
Synonymous names:	Client ID
METEOR identifier:	340193
Registration status:	Community Services (retired) , Standard 30/04/2008 [Non Dictionary]
Definition:	A code that uniquely identifies a person within a state or territory.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—person identifier
METEOR identifier:	287172
Registration status:	Health , Standard 04/05/2005 Community Services (retired) , Standard 25/08/2005 Independent Hospital Pricing Authority , Standard 01/11/2012 Early Childhood , Standard 08/04/2013 Indigenous , Standard 11/08/2014 WA Health , Standard 19/03/2015 Disability , Standard 13/08/2015 National Health Performance Authority (retired) , Retired 01/07/2016 Tasmanian Health , Standard 01/09/2016 Children and Families , Standard 22/11/2016 Youth Justice , Standard 15/02/2022
Definition:	Person identifier unique within an establishment or agency.
Context:	This item could be used for editing at the agency, establishment or collection authority level and, potentially, for record linkage. There is no intention that this item would be available beyond collection authority level.
Object class:	Person
Property:	Person identifier

Value domain attributes

Identifying and definitional attributes

Value domain:	Identifier NX[X(13)]
METEOR identifier:	314213
Registration status:	Community Services (retired) , Standard 30/04/2008
Definition:	A combination of numeric or alphanumeric characters that identify an entity.

Representational attributes

Representation class:	Identifier
Data type:	String
Format:	NX[X(13)]

Data element attributes

Collection and usage attributes

Guide for use:

Collection methods: A State and Territory identifier should be the first character of the ID (N), according to the following ABS standard:

1. New South Wales
2. Victoria
3. Queensland
4. South Australia
5. Western Australia
6. Tasmania
7. Northern Territory
8. Australian Capital Territory
9. Other Territories (i.e. Cocos (Keeling) Islands, Christmas Island and Jervis Bay Territory)

Source and reference attributes

Submitting organisation: National Child Protection and Support Services data group (NCPASS).
Origin: Child protection and support services data dictionary. AIHW Version 1.0 Oct 2005.
Reference documents: AS5017 Health Care Client Identification, 2002, Sydney: Standards Australia
AS4846 Health Care Provider Identification, 2004, Sydney: Standards Australia

Relational attributes

[Community Services \(retired\)](#), Recorded 19/08/2011

Implementation in Data Set Specifications: [Child protection and support services \(CPSS\) - out-of-home care NMDS \(July 2007\)](#)

[Community Services \(retired\)](#), Superseded 01/05/2008

DSS specific information:

This data element is implemented three times in the Out-of-home care NMDS. It is collected for the following three items:

- a code that uniquely identifies a client within a state or territory's child protection system (unique client identification number);
- the unique identification number of a child who is the sibling of (or who has a significant attachment with) the subject child and who was living in the same home as the child. This includes biological, adopted, foster, step or half-brother or sisters (client sibling/significant other identification number); and
- a code that uniquely identifies a caseworker within a state or territory's child protection system (unique caseworker identification number).

The unique client identifier should be assigned by the state or territory community services department when the child first comes in contact with the department. The

child should retain the same unique identifier across time. This data element should be recorded for each child for each contact, care and protection order and out-of-home care episode.

Any sibling of the child subject to the contact should be identified. This code should be used in conjunction with 'Unique client identification number' to ensure consistency of identification numbers.

Each caseworker is to be assigned a unique ID by the community services department that will be retained by the caseworker and will remain unique to the caseworker through time. Within each state and territory, each caseworker should be identified by a code using consistent format. The identifier should be assigned by the state or territory community services department when the caseworker is first employed in this role. The caseworker should retain the same unique identifier across time.
