Service type outlet

Identifying and definitional attributes

Metadata item type: Glossary Item

METEOR identifier: 344878

Registration status: [Community Services \(retired\)](#), Superseded 10/04/2013

Definition: A service type outlet is the unit of the funded agency that delivers a particular CSTDA service type at or from a discrete location. If a funded agency provides, say, both accommodation support and respite services, it is counted as two service type outlets. Similarly, if an agency is funded to provide more than one accommodation support service type (for example, group homes and attendant care) then it is providing (and is usually separately funded for) two different service types, that is, there are two service type outlets for the funded agency.
