

Person—effective communication indicator

Metadata item type: Data Element Concept
METEOR identifier: 345058
Registration status:

- [Community Services \(retired\)](#), Standard 27/04/2007
- [Disability](#), Superseded 29/02/2016

Definition: Whether a person is able to communicate more than just basic needs to unfamiliar people.

Object Class attributes

Identifying and definitional attributes

Object class: [Person](#)
Definition: A human being.

Collection and usage attributes

Comments: Prior to 13 March 2018, the definition of the 'Person' Object class was 'A human being, whether man, woman or child'. From 13 March 2018, the definition was edited by removing the words '...whether man, woman or child' so that a person is defined as 'A human being'. This amendment was undertaken to align the definition of a person with the *Australian Government Guidelines on the Recognition of Sex and Gender* and the Australian Bureau of Statistics (ABS) *Standard for Sex and Gender Variables*, which recognise that there are sex and gender types that are not exclusively male or female.
