# Ventricular ejection fraction result, code N

## Identifying and definitional attributes

|                             |  |
|-----------------------------|--|
| <b>Metadata item type:</b>  | Value Domain   |
| <b>METEOR identifier:</b>   | 346991   |
| <b>Registration status:</b> | <a href="#">Health</a> , Standard 01/10/2008                     |
| <b>Definition:</b>          | A code set identifying the ventricular ejection fraction result. |

## Representational attributes

|                                  |        |
|----------------------------------|--------|
| <b>Representation class:</b>     | Code   |
| <b>Data type:</b>                | Number |
| <b>Format:</b>                   | N      |
| <b>Maximum character length:</b> | 1      |

|                              | Value | Meaning                           |
|------------------------------|-------|-----------------------------------|
| <b>Permissible values:</b>   | 1     | Normal                            |
|                              | 2     | Mild                              |
|                              | 3     | Moderate                          |
|                              | 4     | Severe                            |
| <b>Supplementary values:</b> | 9     | Not stated/inadequately described |

## Collection and usage attributes

|                       |  |
|-----------------------|--|
| <b>Guide for use:</b> | CODE 1   Normal  |
|                       | Use this code when the ejection fraction is greater than 50%   |
|                       | CODE 2   Mild  |
|                       | Use this code when the ejection fraction is greater than or equal to 45% but less than or equal to 50% |
|                       | CODE 3   Moderate  |
|                       | Use this code when the ejection fraction is greater than or equal to 35% but less than 45%             |
|                       | CODE 4   Severe  |
|                       | Use this code when the ejection fraction is less than 35%  |
|                       | CODE 9   Not stated/inadequately described   |
|                       | Not for use in primary data collections.   |
