List of metadata items

Data Elements	8
Radiotherapy treatment type	9
Reason for cessation of treatment episode for alcohol and other drugs	11
Reason for readmission – acute coronary syndrome	15
Reason for removal from elective surgery waiting list	17
Received radiation dose	20
Recurrent expenditure (indirect health care) – (public health and monitoring services	22
Recurrent expenditure (indirect health care) – central administrations	24
Recurrent expenditure (indirect health care) – central and statewide support services	26
Recurrent expenditure (indirect health care) – other	28
Recurrent expenditure (indirect health care) – patient transport services	30
Recurrent expenditure (mental health) – non-salary operating costs	32
Recurrent expenditure (mental health) – salaries and wages	35
Recurrent expenditure (salaries and wages) – administrative and clerical staff	38
Recurrent expenditure (salaries and wages) – carer consultants	41
Recurrent expenditure (salaries and wages) – consultant psychiatrists and psychiatrists	44
Recurrent expenditure (salaries and wages) – consumer consultants	47
Recurrent expenditure (salaries and wages) – diagnostic and health professionals	50
Recurrent expenditure (salaries and wages) – domestic and other staff	54
Recurrent expenditure (salaries and wages) – enrolled nurses	57
Recurrent expenditure (salaries and wages) – occupational therapists	60
Recurrent expenditure (salaries and wages) – other diagnostic and health professionals	63
Recurrent expenditure (salaries and wages) – other medical officers	66
Recurrent expenditure (salaries and wages) – other personal care staff	69
Recurrent expenditure (salaries and wages) – psychiatry registrars and trainees	72
Recurrent expenditure (salaries and wages) – psychologists	75
Recurrent expenditure (salaries and wages) – registered nurses	78
Recurrent expenditure (salaries and wages) – salaried medical officers	81
Recurrent expenditure (salaries and wages) – social workers	84
Recurrent expenditure (salaries and wages) – student nurses	87
Recurrent expenditure (salaries and wages) – total	89
Recurrent expenditure (salaries and wages) – trainee/pupil nurses	91
Recurrent expenditure – Department of Veterans' Affairs funded	93
Recurrent expenditure – National Mental Health Strategy funded	95
Recurrent expenditure – State or Territory health authority funded	97
Recurrent expenditure – administrative expenses	100
Recurrent expenditure – depreciation	103
Recurrent expenditure – domestic services	106
Recurrent expenditure – drug supplies	109
Recurrent expenditure – food supplies	112
Recurrent expenditure – interest payments	115
Recurrent expenditure – medical and surgical supplies	118
Recurrent expenditure – non-salary operating costs (excluding depreciation)	121
Recurrent expenditure – other Commonwealth Government funded	124
Recurrent expenditure – other State or Territory funded	127
Recurrent expenditure – other patient revenue funded	129
Recurrent expenditure – other recurrent expenditure	132
Recurrent expenditure – other revenue funded	135
Recurrent expenditure – patient transport	138

Recurrent expenditure – payments to visiting medical officers.....	141
Recurrent expenditure – recoveries funded.....	144
Recurrent expenditure – repairs and maintenance.....	146
Recurrent expenditure – superannuation employer contributions	149
Recurrent expenditure – total	152
Referral destination to further care (from specialised mental health residential care).....	155
Referral destination to further care (psychiatric patients)	157
Referred to ophthalmologist (diabetes mellitus).....	159
Region code	161
Region of first recurrence	163
Regional lymph nodes examined	165
Regional lymph nodes positive	167
Removal date.....	169
Renal disease therapy	171
Renal disease – end-stage (diabetes complication)	174
Residential stay start date.....	177
Residual expenditure (mental health service) – academic positions.....	179
Residual expenditure (mental health service) – education and training	182
Residual expenditure (mental health service) – insurance	184
Residual expenditure (mental health service) – mental health promotion	186
Residual expenditure (mental health service) – mental health research	188
Residual expenditure (mental health service) – other indirect expenditure	190
Residual expenditure (mental health service) – patient transport services.....	192
Residual expenditure (mental health service) – program administration.....	194
Residual expenditure (mental health service) – property leasing costs.....	196
Residual expenditure (mental health service) – superannuation	198
Residual expenditure (mental health service) – support services	200
Residual expenditure (mental health service) – workers compensation	202
Resuscitation of baby – method.....	204
Revenue – other	206
Revenue – patient	208
Revenue – recoveries.....	210

Data Element Technical Names

Birth event – baby resuscitation method, code N	204
Cancer treatment – radiation dose received, total Gray N[NNNN].....	20
Cancer treatment – radiotherapy treatment type, code N	9
Elective surgery waiting list episode – reason for removal from a waiting list, code N	17
Elective surgery waiting list episode – waiting list removal date, DDMMYYYY	169
Episode of admitted patient care (mental health care) – referral destination, code N.....	157
Episode of residential care (mental health care) – referral destination, code N	155
Episode of treatment for alcohol and other drugs – cessation reason, code N[N]	11
Establishment (community mental health) – recurrent expenditure (non-salary operating costs) (financial year), total Australian currency N[N(8)]	121
Establishment (mental health) – recurrent expenditure (non-salary operating costs) (financial year), total Australian currency N[N(8)].....	32
Establishment (mental health) – recurrent expenditure (total salaries and wages) (financial year), total Australian currency N[N(8)].....	35
Establishment – recurrent expenditure (administrative expenses) (financial year), total Australian currency N[N(8)]	100

Establishment – recurrent expenditure (indirect health care) (public health and monitoring services) (financial year), total Australian currency N[N(8)]	22
Establishment – recurrent expenditure (interest payments) (financial year), total Australian currency N[N(8)]	115
Establishment – recurrent expenditure (medical and surgical supplies) (financial year), total Australian currency N[N(8)].....	118
Establishment – recurrent expenditure (National Mental Health Strategy funded), total Australian currency N[N(8)]	95
Establishment – recurrent expenditure (other Commonwealth Government funded expenditure), total Australian currency N[N(8)].....	124
Establishment – recurrent expenditure (other patient revenue funded expenditure), total Australian currency N[N(8)]	129
Establishment – recurrent expenditure (other recurrent expenditure) (financial year), total Australian currency N[N(8)].....	132

Establishment – recurrent expenditure (other revenue funded expenditure), total Australian currency N[N(8)]	135
Establishment – recurrent expenditure (other state or territory funded expenditure), total Australian currency N[N(8)]	127
Establishment – recurrent expenditure (patient transport cost) (financial year), total Australian currency N[N(8)]	138
Establishment – recurrent expenditure (recoveries funded expenditure), total Australian currency N[N(8)]	144
Establishment – recurrent expenditure (repairs and maintenance) (financial year), total Australian currency N[N(8)]	146
Establishment – recurrent expenditure (salaries and wages) (administrative and clerical staff) (financial year), total Australian currency N[N(8)]	38
Establishment – recurrent expenditure (salaries and wages) (carer consultants) (financial year), total Australian currency N[N(8)]	41
Establishment – recurrent expenditure (salaries and wages) (consultant psychiatrists and psychiatrists) (financial year), total Australian currency N[N(8)]	44
Establishment – recurrent expenditure (salaries and wages) (consumer consultants) (financial year), total Australian currency N[N(8)]	47
Establishment – recurrent expenditure (salaries and wages) (diagnostic and health professionals) (financial year), total Australian currency N[N(8)]	50
Establishment – recurrent expenditure (salaries and wages) (domestic and other staff) (financial year), total Australian currency N[N(8)]	54
Establishment – recurrent expenditure (salaries and wages) (enrolled nurses) (financial year), total Australian currency N[N(8)]	57
Establishment – recurrent expenditure (salaries and wages) (financial year), total Australian currency N[N(8)]	89
Establishment – recurrent expenditure (salaries and wages) (occupational therapists) (financial year), total Australian currency N[N(8)]	60
Establishment – recurrent expenditure (salaries and wages) (other diagnostic and health professionals) (financial year), total Australian currency N[N(8)]	63
Establishment – recurrent expenditure (salaries and wages) (other medical officers) (financial year), total Australian currency N[N(8)]	66
Establishment – recurrent expenditure (salaries and wages) (other personal care staff) (financial year), total Australian currency N[N(8)]	69
Establishment – recurrent expenditure (salaries and wages) (psychiatry registrars and trainees)(financial year), total Australian currency N[N(8)]	72
Establishment – recurrent expenditure (salaries and wages) (psychologists) (financial year), total Australian currency N[N(8)]	75
Establishment – recurrent expenditure (salaries and wages) (registered nurses) (financial year), total Australian currency N[N(8)]	78
Establishment – recurrent expenditure (salaries and wages) (salaried medical officers) (financial year), total Australian currency N[N(8)]	81
Establishment – recurrent expenditure (salaries and wages) (social workers) (financial year), total Australian currency N[N(8)]	84
Establishment – recurrent expenditure (salaries and wages) (student nurses) (financial year), total Australian currency N[N(8)]	87
Establishment – recurrent expenditure (salaries and wages) (trainee/pupil nurses) (financial year), total Australian currency N[N(8)]	91
Establishment – recurrent expenditure (state or territory health authority funded), total Australian currency N[N(8)]	97
Establishment – recurrent expenditure (superannuation employer contributions) (financial year), total Australian currency N[N(8)]	149
Establishment – recurrent expenditure (visiting medical officer payments) (financial year), total Australian currency N[N(8)]	141

Establishment – region identifier, X[X]	161
Establishment – revenue (other revenue) (financial year), total Australian currency N[N(8)]	206
Establishment – revenue (patient) (financial year), total Australian currency N[N(8)]	208
Establishment – revenue (recoveries) (financial year), total Australian currency N[N(8)]	210
Person with cancer – number of positive regional lymph nodes, total N[N]	167
Person with cancer – number of regional lymph nodes examined, total N[N]	165
Person with cancer – region of first recurrence of cancer, code N.....	163
Person – end-stage renal disease status (diabetes complication), code N	174
Person – reason for readmission following acute coronary syndrome episode, code N[N].....	15
Person – referral to ophthalmologist indicator (last 12 months), code N	159
Person – renal disease therapy, code N.....	171
Residential stay – episode start date, DDMMYYYY	177
Specialised mental health service – residual expenditure (academic positions), total Australian currency N[N(8)]	179
Specialised mental health service – residual expenditure (education and training), total Australian currency N[N(8)]	182
Specialised mental health service – residual expenditure (insurance), total Australian currency N[N(8)]	184
Specialised mental health service – residual expenditure (mental health promotion), total Australian currency N[N(8)]	186
Specialised mental health service – residual expenditure (mental health research), total Australian currency N[N(8)]	188
Specialised mental health service – residual expenditure (other indirect expenditure), total Australian currency N[N(8)].....	190
Specialised mental health service – residual expenditure (patient transport services), total Australian currency N[N(8)].....	192
Specialised mental health service – residual expenditure (program administration), total Australian currency N[N(8)]	194
Specialised mental health service – residual expenditure (property leasing costs), total Australian currency N[N(8)]	196
Specialised mental health service – residual expenditure (superannuation), total Australian currency N[N(8)]	198
Specialised mental health service – residual expenditure (support services), total Australian currency N[N(8)]	200
Specialised mental health service – residual expenditure (workers compensation), total Australian currency N[N(8)]	202

Data Elements

Radiotherapy treatment type

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Cancer treatment – radiotherapy treatment type, code N
<i>METeOR identifier:</i>	291438
<i>Registration status:</i>	NHIG, Standard 13/06/2004
<i>Definition:</i>	The type of radiation therapy used in initial treatment of the cancer, as represented by a code.

Data element concept attributes

<i>Data element concept:</i>	Cancer treatment – radiotherapy treatment type
<i>Definition:</i>	The type of radiation therapy used in initial treatment of the cancer.
<i>Object class:</i>	Cancer treatment
<i>Property:</i>	Radiotherapy treatment type

9	Radiotherapy was administered but method was not stated								

Data element attributes

Collection and usage attributes

<i>Collection methods:</i>	If codes 1,2,3 or 9 are used, the amount of radiation received should also be collected. Most external beam radiotherapy is delivered on an outpatient basis. CODE 2 Brachytherapy (radioactive implants) This code is likely to be listed as a procedure for admitted patients.

Collection and usage attributes

Guide for use:

To be collected on cessation of a treatment episode. Codes 1 to 12 listed above are set out as follows to enable a clearer picture of which codes are to be used for what purpose:

Treatment completed as planned:

CODE 1 Treatment completed

Client ceased to participate:

CODE 6 Ceased to participate against advice

CODE 7 Ceased to participate without notice

CODE 8 Ceased to participate involuntary (non-compliance)

CODE 9 Ceased to participate at expiation

Ceased to participate at expiation:

CODE 11 Drug court and /or sanctioned by court diversion service

CODE 12 Imprisoned, other than drug court sanctioned

Treatment not completed (other):

CODE 2 Change in main treatment type

CODE 3 Change in the delivery setting

CODE 4 Change in the principal drug of concern

CODE 5 Transferred to another service provider

Treatment ceased by mutual agreement:

CODE 10 Ceased to participate by mutual agreement

CODE 1 Treatment completed

This code is to be used when all of the immediate goals of the treatment have been completed as planned. Includes situations where the client, after completing this treatment, either does not commence any new treatment, commences a new treatment episode with a different main treatment or principal drug, or is referred to a different service provider for further treatment.

CODE 2 Change in main treatment type

A treatment episode will end if, prior to the completion of the existing treatment, there is a change in the main treatment type for alcohol and other drugs. See also Code 10.

CODE 3 Change in the delivery setting

A treatment episode may end if, prior to the completion of the existing treatment, there is a change in the treatment delivery setting for alcohol and other drugs. See also Code 10 and the Guide for use section in metadata item Episode of treatment for alcohol and other drugs.

CODE 4 Change in the principal drug of concern

A treatment episode will end if, prior to the completion of the existing treatment, there is a change in the principal drug of concern. See also Code 10.

CODE 5 Transferred to another service provider

This code includes situations where the service provider is no longer the most appropriate and the client is transferred/referred to another service. For example, transfers could occur for clients between non-residential and residential services or between residential services and a hospital. Excludes situations where the original treatment was completed before

the client transferred to a different provider for other treatment (use Code 1).

CODE 6 Ceased to participate against advice

This code refers to situations where the service provider is aware of the client's intention to stop participating in treatment, and the client ceases despite advice from staff that such action is against the client's best interest.

CODE 7 Ceased to participate without notice

This code refers to situations where the client ceased to receive treatment without notifying the service provider of their intention to no longer participate.

CODE 8 Ceased to participate involuntary (non-compliance)

This code refers to situations where the client's participation has been ceased by the service provider due to non-compliance with the rules or conditions of the program.

CODE 9 Ceased to participate at expiation

This code refers to situations where the client has fulfilled their obligation to satisfy expiation requirements (e.g. participate in a treatment program to avoid having a criminal conviction being recorded against them) as part of a police or court diversion scheme and chooses not to continue with further treatment.

CODE 10 Ceased to participate by mutual agreement

This code refers to situations where the client ceases participation by mutual agreement with the service provider even though the treatment plan has not been completed. This may include situations where the client has moved out of the area. Only to be used when Code 2, 3 or 4 is not applicable.

CODE 11 Drug court and/or sanctioned by court diversion service

This code applies to drug court and/or court diversion service clients who are sanctioned back into jail for non-compliance with the program.

CODE 12 Imprisoned, other than drug court sanctioned

This code applies to clients who are imprisoned for reasons other than Code 11.

Data element attributes

Collection and usage attributes

Comments: Given the levels of attrition within alcohol and other drug treatment programs, it is important to identify the range of different reasons for ceasing treatment with a service.

Reason for readmission—acute coronary syndrome

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Person – reason for readmission following acute coronary syndrome episode, code N[N]
<i>METeOR identifier:</i>	285173
<i>Registration status:</i>	NHIG, Standard 04/06/2004
<i>Definition:</i>	The main reason for the admission , to any hospital, of a person within 28 days of discharge from an episode of admitted patient care for acute coronary syndrome, as represented by a code.

Data element concept attributes

<i>Data element concept:</i>	Person – reason for readmission following acute coronary syndrome episode
<i>Definition:</i>	Identifies the main reason for the admission , to any hospital, of a person within 28 days of discharge from an episode of admitted patient care for acute coronary syndrome.
<i>Context:</i>	Acute coronary syndrome reporting only.
<i>Object class:</i>	Person
<i>Property:</i>	Reason for readmission following acute coronary syndrome episode

Collection and usage attributes

Guide for use:

CODE 5 Planned Percutaneous Coronary Intervention (PCI)

This code is used when a readmission and PCI is planned, i.e. not precipitated by a recurrent ischaemic event. If a recurrent ischaemic event precipitates a readmission with an associated PCI undertaken, one of codes 1-4 should be coded.

CODE 6 Planned Coronary Artery Bypass Grafting (CABG)

This code is used coded when a readmission and CABG is planned, i.e, not precipitated by a recurrent ischaemic event. If a recurrent ischaemic event precipitates a readmission with an associated CABG undertaken, one of codes 1-4 should be coded.

Data element attributes

Collection and usage attributes

Guide for use:

The reason for readmission may be for cardiac or non-cardiac related causes.

Comments:

This metadata item is designed to identify recurrent admissions following an initial presentation with acute coronary syndromes (ACS), not necessarily to the hospital responsible for the index admission.

Reason for removal from elective surgery waiting list

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Elective surgery waiting list episode—reason for removal from a waiting list, code N
<i>METeOR identifier:</i>	269959
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	The reason why a patient is removed from the elective surgery waiting list, as represented by a code.

Data element concept attributes

<i>Data element concept:</i>	Elective surgery waiting list episode—reason for removal from a waiting list
<i>Definition:</i>	The reason why a patient is removed from the waiting list.
<i>Context:</i>	<p>Elective surgery:</p> <p>Routine admission for the awaited procedure is only one reason why patients are removed from the waiting list. Each reason for removal provides different information. These data are necessary to augment census and throughput data. For example, after an audit the numbers of patients on a list would be expected to reduce. If an audit were undertaken immediately prior to a census the numbers on the list may appear low and not in keeping with the number of additions to the list and patients admitted from the list.</p>
<i>Object class:</i>	Elective surgery waiting list episode
<i>Property:</i>	Reason for removal from a waiting list

6	Transferred to another hospital's waiting list														

Collection and usage attributes

Guide for use:

CODE 1 Admitted as an elective patient for awaited procedure in this hospital or another hospital
Patients undergoing the awaited procedure whilst admitted for another reason are to be coded this code.

CODE 2 Admitted as an emergency patient for awaited procedure in this hospital or another hospital
This code identifies patients who were admitted ahead of their normal position in the queue because the condition requiring treatment deteriorated whilst waiting. Admission as an emergency patient could also be due to other causes such as inappropriate urgency rating, delays in the system, or unpredicted biological variation.

CODES 3 - 5

CODE 3 Could not be contacted (includes patients who have died while waiting whether or not the cause of death was related to the condition requiring treatment)

CODE 4 Treated elsewhere for awaited procedure, but not as a patient of this hospital's waiting list

CODE 5 Surgery not required or declined

These codes provide an indication of the amount of clerical audit of the waiting lists. Code 4 gives an indication of patients treated other than as a patient of the hospital's waiting list. The awaited procedure may have been performed as an emergency or as an elective procedure.

CODE 6 Transferred to another hospital's waiting list

This code identifies patients who were transferred from one hospital's elective surgery waiting list to that of another hospital. The waiting time on the waiting lists at the initial hospital and subsequent hospitals should be combined for national reporting.

CODE 9 Not known

This code identifies patients removed from the waiting list for reasons unknown.

Representational attributes

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Report all expenditure in thousands of dollars (i.e \$ 000's). Expenditure should include both the specific costs directly associated with the service and indirect costs, for example personnel services. Research and academic units that function as an integral part of ambulatory care should be reported against the appropriate service. Depreciation is to be excluded from the Non-salary operating costs.
<i>Collection methods:</i>	Non-salary recurrent expenditure, excluding Depreciation, is to be reported by service setting (admitted patient care, residential care, ambulatory care).

For the admitted patient care setting Non-salary recurrent expenditure, excluding Depreciation, is to be disaggregated by Specialised mental health service program type and Specialised mental health service target population, together.

The sub-components of non-salary recurrent expenditure, and depreciation, are to be reported at the organisation level for the Mental health establishments NMDS. However, if the organisation is not reporting on an accrual basis then it does not need to report Depreciation.

Recurrent expenditure (mental health)—salaries and wages

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment (mental health) – recurrent expenditure (total salaries and wages) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	296577
<i>Registration status:</i>	NHIG, Standard 08/12/2004
<i>Definition:</i>	Total salary and wage payments to all staff of a mental health establishment, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment – recurrent expenditure (salaries and wages)
<i>Definition:</i>	<p>Salary and wage payments for all employees of the establishment (including contract staff employed by an agency, provided staffing data is also available).</p> <p>Generally, salary data by staffing categories should be broadly consistent with full-time equivalent staffing numbers. Where staff provide services to more than one hospital (for Public hospitals establishments NMDs) or service unit (for Mental health establishments NMDs), their salaries should be apportioned between all hospitals to whom services are provided on the basis of hours worked in each hospital.</p> <p>Salary payments for contract staff employed through an agency should be included under salaries for the appropriate staff category provided they are included in full-time equivalent staffing. If they are not, salary payments should be shown separately.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Salaries and wages invariably constitute the major component of recurrent and, indeed, total expenditure for establishments are vital to any analysis of health expenditure at the national level. The categories correspond with those relating to full-time equivalent staffing which is a requirement for any proper analysis of average salary costs.</p>
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Collection and usage attributes

<i>Comments:</i>	<p>This is to include all paid leave (recreation, sick and long-service) and salary and wage payments relating to workers compensation leave.</p> <p>Salary data for contract staff, provided the contract is for the supply of labour (e.g. nursing) rather than products (e.g. photocopier maintenance), should be shown under the appropriate staff salary category provided that corresponding staffing (full-time equivalent) data is available. If not, it should be shown separately.</p>

Information specific to this data set:

For the Mental health establishments national minimum data set reporting of this data element is optional for non-government residential mental health services and specialised mental health services provided by private hospitals that receive State or Territory government funding.

Total salary and wages is the sum of the above categories and is to be reported by service setting (admitted patient care, residential care, ambulatory care).

For the admitted patient setting the total for salary and wages is to be disaggregated by Specialised mental health service program type and Specialised mental health service target population, together.

Recurrent expenditure (salaries and wages)— administrative and clerical staff

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—recurrent expenditure (salaries and wages) (administrative and clerical staff) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270275
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	Salary and wage payments measured in Australian dollars to administrative and other clerical staff of an establishment, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment—recurrent expenditure (salaries and wages)
<i>Definition:</i>	<p>Salary and wage payments for all employees of the establishment (including contract staff employed by an agency, provided staffing data is also available).</p> <p>Generally, salary data by staffing categories should be broadly consistent with full-time equivalent staffing numbers. Where staff provide services to more than one hospital (for Public hospitals establishments NMDs) or service unit (for Mental health establishments NMDs), their salaries should be apportioned between all hospitals to whom services are provided on the basis of hours worked in each hospital.</p> <p>Salary payments for contract staff employed through an agency should be included under salaries for the appropriate staff category provided they are included in full-time equivalent staffing. If they are not, salary payments should be shown separately.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Salaries and wages invariably constitute the major component of recurrent and, indeed, total expenditure for establishments are vital to any analysis of health expenditure at the national level. The categories correspond with those relating to full-time equivalent staffing which is a requirement for any proper analysis of average salary costs.</p>
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Collection and usage attributes

<i>Comments:</i>	<p>This is to include all paid leave (recreation, sick and long-service) and salary and wage payments relating to workers compensation leave.</p> <p>Salary data for contract staff, provided the contract is for the supply of labour (e.g. nursing) rather than products (e.g. photocopier maintenance), should be shown under the appropriate staff salary category provided that corresponding staffing (full-time equivalent) data is available. If not, it should</p>

Guide for use: Carer consultants are persons employed (or engaged via contract) on a part-time or full-time paid basis to represent the interests of carers and advocate for their needs. This implies the person received a salary or contract fee on a regular basis. It does not refer to arrangements where the carer only received reimbursements of expenses or occasional sitting fees for attendance at meetings.

Collection methods: Note: This code is only to be reported for the Mental Health Establishments NMDS.
For Public hospital establishments NMDS data are to be reported in a category according to specific state and territory arrangements.

Recurrent expenditure (salaries and wages)— trainee/pupil nurses

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—recurrent expenditure (salaries and wages) (trainee/pupil nurses) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270272
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	Salary and wage payments measured in Australian dollars to trainee/pupil nurses of an establishment, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment—recurrent expenditure (salaries and wages)
<i>Definition:</i>	<p>Salary and wage payments for all employees of the establishment (including contract staff employed by an agency, provided staffing data is also available).</p> <p>Generally, salary data by staffing categories should be broadly consistent with full-time equivalent staffing numbers. Where staff provide services to more than one hospital (for Public hospitals establishments NMDS) or service unit (for Mental health establishments NMDS), their salaries should be apportioned between all hospitals to whom services are provided on the basis of hours worked in each hospital.</p> <p>Salary payments for contract staff employed through an agency should be included under salaries for the appropriate staff category provided they are included in full-time equivalent staffing. If they are not, salary payments should be shown separately.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Salaries and wages invariably constitute the major component of recurrent and, indeed, total expenditure for establishments are vital to any analysis of health expenditure at the national level. The categories correspond with those relating to full-time equivalent staffing which is a requirement for any proper analysis of average salary costs.</p>
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Collection and usage attributes

<i>Comments:</i>	<p>This is to include all paid leave (recreation, sick and long-service) and salary and wage payments relating to workers compensation leave.</p> <p>Salary data for contract staff, provided the contract is for the supply of labour (e.g. nursing) rather than products (e.g. photocopier maintenance), should be shown under the appropriate staff salary category provided that corresponding staffing (full-time equivalent) data is available. If not, it should be shown separately.</p>

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Australian dollars. Rounded to nearest whole dollar.
<i>Collection methods:</i>	DVA-funded expenditure to be reported only once and for the specific statistical unit level at which the expenditure is available. Where DVA-funded expenditure could be allocated to more than one level it is important to allocate it to the single most appropriate statistical unit level to avoid the possible of counting the expended funds more than once. For example, funding provided for service delivery expenditure should be reported at the lowest statistical unit level possible only.

Recurrent expenditure—depreciation

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment – recurrent expenditure (depreciation) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270279
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	Depreciation charges measured in Australian dollars for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment – recurrent expenditure (depreciation)
<i>Definition:</i>	Depreciation represents the expensing of a long-term asset over its useful life and is related to the basic accounting principle of matching revenue and expenses for the financial period. Depreciation charges for the current financial year only should be shown as expenditure. Where intangible assets are amortised (such as with some private hospitals) this should also be included in recurrent expenditure.
<i>Context:</i>	Health expenditure: This metadata item has been retained for national minimum data sets because of its significance for the private sector. Current period depreciation charges form a significant component of expenditure for any health establishment whose financial statements are based on accrual accounting.
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Value domain attributes

Representational attributes

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Record values up to hundreds of millions of dollars. Rounded to the nearest whole dollar. Depreciation is to be reported by service setting (admitted patient care, residential care, ambulatory care). For admitted patient care settings, depreciation is to be disaggregated by Specialised mental health service program type and Specialised mental health service target population, together.
-----------------------	--

Comments:

With the long-term trend towards accrual accounting in the public sector, this metadata item will ultimately become significant for public sector establishments. Public sector establishments in some states have adopted modified accrual accounting identifying depreciation only, before reaching full accrual accounting. Depreciation is now reported for most public sector establishments and should be reported as a separate recurrent expenditure. Depreciation should be identified separately from other recurrent expenditure categories.

Recurrent expenditure—food supplies

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment – recurrent expenditure (food supplies) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270284
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	The cost measured in Australian dollars of all food and beverages but not including kitchen expenses such as utensils, cleaning materials, cutlery and crockery, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment – recurrent expenditure (food supplies)
<i>Definition:</i>	The cost of all food and beverages but not including kitchen expenses such as utensils, cleaning materials, cutlery and crockery.
<i>Context:</i>	Health expenditure: This is a significant element of non-salary recurrent expenditure for most establishments within the Public hospital establishments national minimum data set and is thus required for any health expenditure analysis at the national level.
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Value domain attributes

Representational attributes

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Record values up to hundreds of millions of dollars. Rounded to the nearest whole dollar. Gross expenditure should be reported with no revenue offsets, except for inter-hospital transfers.

Recurrent expenditure—interest payments

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment – recurrent expenditure (interest payments) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270186
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	Payments in Australian dollars made by or on behalf of the establishment in respect of borrowings (e.g. interest on bank overdraft) provided the establishment is permitted to borrow, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment – recurrent expenditure (interest payments)
<i>Definition:</i>	Payments made by or on behalf of the establishment in respect of borrowings (e.g. interest on bank overdraft) provided the establishment is permitted to borrow. This does not include the cost of equity capital (i.e. dividends on shares) in respect of profit-making private establishments.
<i>Context:</i>	Health expenditure: This metadata item has been retained in the data set because of its significance for the private sector. Private profit-making establishments will seek to fund their operations either by loan borrowings (debt capital) or raising shares (equity capital). The cost of either can be significant, although the cost of the latter (that is, dividends on shares) would come out of profits.
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Value domain attributes

Representational attributes

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Record values up to hundreds of millions of dollars. Rounded to nearest whole dollar.
<i>Comments:</i>	The item would not have been retained if the data set was restricted to the public sector. In some States, public hospitals may not be permitted to borrow funds or it may be entirely a State treasury matter, not identifiable by the health authority. Even where public sector establishment borrowings might be

identified, this appears to be a sensitive area and also of less overall significance than in the private sector.

Note: this excludes expenditure funded by Department of Veterans' Affairs payments in respect of specific patients, or funded by the Commonwealth nursing home or hostel subsidies which should be reported in Department of Veterans' Affairs funded expenditure or Commonwealth Government funded expenditure respectively. Where other patient revenue funded expenditure could be

allocated to more than one level, it is important to allocate it to the single most appropriate statistical unit level to avoid the possibility of counting the expended funds more than once. For example, funding provided for service delivery expenditure should be reported at the lowest statistical unit level possible only.

Recurrent expenditure—payments to visiting medical officers

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—recurrent expenditure (visiting medical officer payments) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270049
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	All payments measured in Australian dollars made by an institutional health care establishment to visiting medical officers for medical services provided to hospital (public) patients on an honorary, sessionally paid, or fee for service basis, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment—recurrent expenditure (visiting medical officer payments)
<i>Definition:</i>	<p>All payments made by an institutional health care establishment to visiting medical officers for medical services provided to hospital (public) patients on an honorary, sessionally paid, or fee for service basis.</p> <p>A visiting medical officer is a medical practitioner appointed by the hospital board to provide medical services for hospital (public) patients on an honorary, sessionally paid, or fee for service basis. This category includes the same Australian Standard Classification of Occupations codes as the salaried medical officers category.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>This is a significant element of expenditure for many hospitals (although not for other establishments) and needed for health financing and health expenditure analysis at the national level. Any analysis of health expenditures at the national level would tend to break down if significant components of expenditure were not available.</p>
<i>Object class:</i>	Establishment
<i>Property:</i>	Recurrent expenditure

Value domain attributes

Representational attributes

<i>Representation class:</i>	Total
<i>Data type:</i>	Currency
<i>Format:</i>	N[N(8)]
<i>Maximum character length:</i>	9
<i>Unit of measure:</i>	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

<i>Guide for use:</i>	Record as currency up to hundreds of millions of dollars. Rounded to nearest whole dollar.
<i>Comments:</i>	Although accepting the need to include visiting medical officer payments, the Resources Working Party decided not to include data on visiting medical officer services (whether hours or number of sessions or number of services provided) due to collection difficulties and the perception that use of visiting medical officers was purely a hospital management issue.

Recurrent expenditure—superannuation employer contributions

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—recurrent expenditure (superannuation employer contributions) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270371
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	Contributions paid in Australian dollars or (for an emerging cost scheme) that should be paid (as determined by an actuary) on behalf of establishment employees either by the establishment or a central administration such as a state health authority, to a superannuation fund providing retirement and related benefits to establishment employees, for a financial year.

Data element concept attributes

<i>Data element concept:</i>	Establishment—recurrent expenditure (superannuation employer contributions)
<i>Definition:</i>	<p>Contributions paid or (for an emerging cost scheme) that should be paid (as determined by an actuary) on behalf of establishment employees either by the establishment or a central administration such as a state health authority, to a superannuation fund providing retirement and related benefits to establishment employees.</p> <p>The following different funding bases are identified:</p> <ul style="list-style-type: none">• paid by hospital to fully funded scheme;• paid by Commonwealth Government or State government to fully funded scheme;• unfunded or emerging costs schemes where employer component is not presently funded. <p>Fully funded schemes are those in which employer and employee contributions are paid into an invested fund. Benefits are paid from the fund. Most private sector schemes are fully funded.</p> <p>Emerging cost schemes are those in which the cost of benefits is met at the time a benefit becomes payable; that is, there is no ongoing invested fund from which benefits are paid. The Commonwealth superannuation fund is an example of this type of scheme as employee benefits are paid out of general revenue.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Superannuation employer contributions are a significant element of establishment expenditure and, as such, are required for health expenditure analysis at the national level.</p> <p>The funding basis is required for cost comparison purposes particularly in the case of unfunded or emerging cost schemes where no actual contribution is being presently made but ultimately employer liability will have to be funded.</p>

<i>Guide for use:</i>	Record as currency up to hundreds of millions of dollars. Rounded to nearest whole dollar.
<i>Comments:</i>	The definition specifically excludes employee superannuation contributions (not a cost to the establishment) and superannuation final benefit payments. In private enterprise some superannuation schemes are partially funded but this is considered too complex a distinction for national minimum data sets. It is noted that the emergence of salary sacrifice schemes allows employees to forego salary for higher superannuation contributions. If these become significant, national minimum data sets may have to take them into account at a future stage.

Implementation in Data Set Specifications: Cardiovascular disease (clinical) DSS NHIG, Superseded 15/02/2006

Information specific to this data set:

Nephrotoxic agents (including radiocontrast) should be avoided where possible.

Drugs that impair auto-regulation of glomerular filtration rate (GFR) (NSAIDs, COX-2, ACEI, ATRA) should be used with caution in renal impairment, particularly when patients are acutely unwell for other reasons (sepsis, peri-operative etc).

Although combination ACEI and diuretic can be a very potent and efficacious means of reducing blood pressure (and thereby slowing progression), either drug should be introduced individually and carefully in a patient with underlying renal impairment. At the very least, diuretic therapy should be held or reduced when commencing an ACEI in a patient with renal impairment. Combination therapy with ACEI, diuretics and NSAIDs or COX-2 may be particularly harmful.

Drugs, which are primarily excreted by the kidney (e.g. metformin, sotalol, cisapride, etc.) need to be used with caution in patients with renal impairment. The calculated GFR needs to be determined and the dose reduced or the drug avoided as appropriate.

Supersedes Renal disease - end stage, diabetes complication, version 1, DE, NHDD, NHIMG, Superseded 01/03/2005

Implementation in Data Set Specifications:

Diabetes (clinical) DSS NHIG, Superseded 21/09/2005

Information specific to this data set:

To determine chronic renal impairment: -

Glomerular filtration rate (GFR)

GFR > 90 ml/min normal

GFR > 60 - 90 ml/min: mild renal impairment

GFR > 30 - 60 ml/min: moderate renal impairment

GFR 0- 30 ml/min: severe renal impairment

For greater than 3 months.

In general, patients with GFR Patients should be assessed for the complications of chronic renal impairment including anaemia, hyperparathyroidism and be referred for specialist management if required.

Patients with rapidly declining renal function or clinical features to suggest that residual renal function may decline rapidly (i.e. hypertensive, proteinuric (>1 g/24 hours), significant co-morbid illness) should be considered for referral to a nephrologist well before function declines to less than 30 ml/min. (Draft CARI Guidelines 2002. Australian Kidney Foundation).

Patients in whom the cause of renal impairment is uncertain should be referred to a nephrologist for assessment.

End-stage renal disease is a recognised complication of Type 1 and Type 2 diabetes mellitus. Diabetes is the commonest cause for renal dialysis in Australia.

The term end-stage renal disease has become synonymous with the late stages of chronic renal failure. Diabetic nephropathy may be effectively prevented and treated by controlling glycemia and administering angiotensin-converting enzyme (ACE) inhibitors. *J Am Soc Nephrol* 2002 Jun; 13(6): 1615-1625].

Residual expenditure (mental health service)—mental health promotion

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Specialised mental health service – residual expenditure (mental health promotion), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	290156
<i>Registration status:</i>	NHIG, Standard 08/12/2004
<i>Definition:</i>	Expenditure in Australian dollars by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It refers to the organisation, region or state/territory administration expenditure dedicated specifically to mental health promotion objectives. Mental health promotion is defined as activities designed to lead to improvement of the mental health functioning of persons through prevention, education and intervention activities and services.

Data element concept attributes

<i>Data element concept:</i>	Specialised mental health service – residual expenditure (mental health promotion)
<i>Definition:</i>	Expenditures by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It refers to the organisation, region or state/territory administration expenditure dedicated specifically to mental health promotion objectives. Mental health promotion is defined as activities designed to lead to improvement of the mental health functioning of persons through prevention, education and intervention activities and services.
<i>Context:</i>	Specialised mental health service: to improve and substantiate financial reporting in relation to residual mental health care expenditure and assist in understanding differences in costs for similar specialised mental health service in different states or territories and regions, where these cost differences are due to differences in the extent to which support services and other services to residents/admitted patients and outpatients of an organisation or service unit may be provided by the organisation or service unit itself or by other bodies
<i>Object class:</i>	Specialised mental health service
<i>Property:</i>	Residual expenditure

<i>Format:</i>	N[N(8)]

Maximum character length: 9
Unit of measure: Australian currency (AU\$)

Data element attributes

Collection and usage attributes

Guide for use: Excludes grants to non-government organisations for services that are to be reported separately. These are grants for accommodation services, advocacy services, community awareness services, counselling services, independent living skills support services, pre-vocational training services, psychosocial support services, recreational services, respite services, self-help support group services and other unspecified services grants.
Reporting expenditure against this item is not intended to be based on costing of activities that retrospectively, entailed a significant mental health promotion component. Instead it should be confined to financial allocations that were clearly targeted towards mental health promotion objectives.

Collection methods: Residual mental health expenditure is to be reported only at the level at which the expenditure occurred (state/territory, region or organisational), and should not be counted at more than one level.
Do not count these costs if they have been included in the expenditure reported by service delivery organisations within the region.

These are grants for accommodation services, advocacy services, community awareness services, counselling services, independent living skills support services, pre-vocational training services, psychosocial support services, recreational services, respite services, self-help support group services and other unspecified services grants.

Collection methods:

Residual mental health expenditure is to be reported only at the level at which the expenditure occurred (state/territory, region or organisational), and should not be counted at more than one level. Expenditure should be reported for these categories, where applicable:

Report research expenditure for this category only where the research operated independently and where that expenditure is not reported elsewhere. Where the research activity occurs as an integral component of service delivery (e.g. in cases where research staff are also clinical staff within a hospital unit), the expenditure should be reported under the relevant service unit (at the organisation-level).

Data element attributes

Collection and usage attributes

Guide for use: Excludes grants to non-government organisations for services that are to be reported separately. These are grants for accommodation services, advocacy services, community awareness services, counselling services, independent living skills support services, pre-vocational training services, psychosocial support services, recreational services, respite services, self-help support group services and other unspecified services grants.

Collection methods: Residual mental health expenditure is to be reported only at the level at which the expenditure occurred (state/territory, region or organisational), and should not be counted at more than one level.

Note: Workers compensation expenditure already included in establishments expenditure should not be included in this data element.

Revenue—other

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—revenue (other revenue) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270128
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	All other revenue measured in Australian dollars received by the establishment for a financial year, that is not included under patient revenue or recoveries (but not including revenue payments received from State or Territory governments).

Data element concept attributes

<i>Data element concept:</i>	Establishment—revenue (other revenue)
<i>Definition:</i>	All other revenue received by the establishment that is not included under patient revenue or recoveries (but not including revenue payments received from state or territory governments). This would include revenue such as investment income from temporarily surplus funds and income from charities, bequests and accommodation provided to visitors. See text relating to offsetting practices. Gross revenue should be reported (except in relation to payments for inter-hospital transfers of goods and services).
<i>Context:</i>	Health services: In aggregate, other revenues as defined above constitute a significant source of income for many establishments and are necessary to complete the revenue picture for health financing studies or analyses at the national level.

Revenue—patient

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—revenue (patient) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	270047
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	All revenue measured in Australian dollars for a financial year, received by, and due to, an establishment in respect of individual patient liability for accommodation and other establishment charges.

Data element concept attributes

<i>Data element concept:</i>	Establishment—revenue (patient)
<i>Definition:</i>	<p>Patient revenue comprises all revenue received by, and due to, an establishment in respect of individual patient liability for accommodation and other establishment charges. All patient revenue is to be grouped together regardless of source of payment (Commonwealth, health fund, insurance company, direct from patient) or status of patient (whether inpatient or non-inpatient, private or compensable). Gross revenue should be reported.</p> <p>Note: The Commonwealth contribution in respect of residential aged care service patients should be included under patient revenue.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Patient revenue is a significant source of income for most establishments. For some establishments (principally the private sector) it is the major source of income. Patient revenue data is important for any health financing analyses or studies at the national level.</p>

Revenue—recoveries

Identifying and definitional attributes

<i>Metadata item type:</i>	Data Element
<i>Technical name:</i>	Establishment—revenue (recoveries) (financial year), total Australian currency N[N(8)]
<i>METeOR identifier:</i>	269974
<i>Registration status:</i>	NHIG, Standard 01/03/2005
<i>Definition:</i>	All revenue received in Australian dollars for a financial year, that is in the nature of a recovery of expenditure incurred.

Data element concept attributes

<i>Data element concept:</i>	Establishment—revenue (recoveries)
<i>Definition:</i>	<p>All revenue received that is in the nature of a recovery of expenditure incurred. This would include:</p> <ul style="list-style-type: none">• income received from the provision of meals and accommodation to members of staff of the hospital (assuming it is possible to separate this from income from the provision of meals and accommodation to visitors;• income received from the use of hospital facilities by salaried medical officers exercising their rights of private practice and by private practitioners treating private patients in hospital; and• other recoveries such as those relating to inter-hospital services where the revenue relates to a range of different costs and cannot be clearly offset against any particular cost. <p>Generally, gross revenues should be reported but, where inter-hospital payments for transfers of goods and services are made, offsetting practices are acceptable to avoid double counting. Where a range of inter-hospital transfers of goods and services is involved and it is not possible to allocate the offsetting revenue against particular expenditure categories, then it is acceptable to bring that revenue in through recoveries.</p>
<i>Context:</i>	<p>Health expenditure:</p> <p>Recoveries represent a significant source of income for many establishments and, as well as assisting in completing the picture in any health financing studies or analysis at the national level, are relevant in relation to the determination of net costs and output costs.</p>

Australian currency (AU\$)

Data element attributes

Collection and usage attributes

Guide for use:

Record as currency up to hundreds of millions of dollars.
Rounded to nearest whole dollar.

This metadata item relates to all revenue received by establishments except for general revenue payments received from state or territory governments.

Comments:

The Resources Working Party had considered splitting recoveries into staff meals and accommodation, and use of hospital facilities (private practice) and other recoveries. Some states had felt that use of facilities was too sensitive as a separate identifiable item in a national minimum data set. Additionally, it was considered that total recoveries was an adequate category for health financing analysis purposes at the national level.
