- Finalised supervision and other finalised orders
- Interim and temporary orders.

CODE 2   Other type of order

Any other type of order not covered above.

Data element attributes

Collection and usage attributes

Collection methods:	This item should be recorded at the time of commencing the placement.
	If a child has more than one type of order in effect, the order recorded should be the one closest to the top of the list. For example, if a child is on 'another type' of order and a care and protection order, then the child should be recorded as being on a care and protection order.
	Young people on juvenile justice orders only should be recorded as being on another type of order, and the data item 'Juvenile justice/correction order' must be completed.
Comments:	This is important to determine what type of legal order the child is on at commencement of a placement.

Source and reference attributes
