CODE 1 Help with behavioural problems

This option refers to assistance or support addressing the behavioural problems of the child.

CODE 3 Child care

This option refers to the care of a child by someone other than the child's parents (where parent is taken to mean biological, adoptive or step parent of the child, the child's legal guardian, or the de facto partner of the child's parent). It includes care of a school aged child after school (after school care) or during school vacations or holidays (holiday/vacation care).

CODE 4 School liaison

This option refers to work undertaken on behalf of a child that is related to the

child's education. This includes, for example, assistance with enrolments, and discussion with teachers, administrators or counsellors concerning the child's progress or behaviour.

CODE 5 Access arrangements

This option refers to work or assistance provided on behalf of a child to ensure that both parents have adequate access to the child, and to ensure that access is provided in such a way that satisfies the terms set out in a court order, protects the child, and guarantees the return of the child to the appropriate custodian. This includes arranging or supervising access visits.

CODE 10 Culturally specific services

This option refers to support and assistance delivered in a way that is sensitive to the child's ethnic or cultural background.

CODE 11 Meals

This option refers to the actual provision of food. Money to purchase food or food vouchers given directly to the child should be included under Other.

CODE 13 Recreation

This option refers to the provision and coordination of leisure activities for the child except those covered by structured play/skill development.

This option includes driving a child to an appointment or location. Money for a tram, train or bus given directly to the child should be included under Other.

CODE 15 Advice/information

This option refers to information given to the child or parent/guardian on behalf of the child that relates to the needs of the child as identified by the worker. It can include information about other services where it is left to the child (or parent/guardian) to follow up the information. For example, this would be selected if you gave a child (or parent/guardian) the names of three counselling services and left it up to the child (or parent /guardian) to contact those services.

CODE 17 Skills education

This option refers to guidance provided to the child in a number of different areas, such as teaching them social skills (ie. building friendships), living skills/personal development (ie. cooking skills, literacy skills, personal care), anger management and conflict resolution skills.

CODE 21 SAAP/CAP accommodation (including THMs and other SAAP managed properties)

Data element attributes

Collection and usage attributes

Guide for use: Multiple support services may be chosen that have been provided to the client as identified by the worker at the agency.

Comments: This information can be used to show the range of support services that agencies provide, and whether the needs of clients can be met either through direct service provision at the agency or potentially through referrals to other services. This is important information for service and program planning.

An unmet need is indicated where, for a SAAP client, a need has been identified for a support service, but the support has not been provided directly by the SAAP agency, and there has been no referral arranged to another service in order to receive services that cannot be provided by the agency.
