

Child protection and support services (CPSS) case worker cluster

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	355935
Registration status:	<ul style="list-style-type: none">• Community Services (retired), Standard 30/04/2008 [Non Dictionary]
DSS type:	Data Element Cluster
Scope:	<p>This cluster is referred to as the CPSS case worker file. It is used in all three of the CPSS NMDS, all of which are unit record data. The first is the child protection specific data, which includes notifications, investigations and substantiations and services provided. The second is data on children who are on care and protection orders. The third is data on children in out-of-home care.</p> <p>The Child Protection and Support Services National Minimum Data Set (CPSS NMDS) is designed to capture information on all children and young people involved in the child protection systems throughout Australia.</p>
