Service provider organisation—standards assessment indicator, yes/no code N

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Standards assessment indicator

METEOR identifier: 356457

Registration status: Community Services (retired), Standard 10/04/2013

<u>Disability</u>, Standard 13/08/2015 <u>Health</u>, Standard 05/12/2007 <u>Indigenous</u>, Standard 13/03/2015

Definition: Whether a service provider organisation routinely undertakes or undergoes formal

assessment against defined industry standards, as represented by a code.

Data Element Concept: Service provider organisation—standards assessment indicator

Value Domain: Yes/no code N

Value domain attributes

Representational attributes

Representation class: Code

Data type: Boolean

Format: N

Maximum character length: 1

Value Meaning

Permissible values: 1 Yes

2 No

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Guide for use:

Formal assessment against the relevant standards may occur via self-assessment or external assessment methods. A 'formal' self-assessment should involve a number of aspects, including the planning and development of a clear structure for the assessment process; the use of an accepted evaluation method such as a peer review; and the use of validated tools where these are available. A 'formal' assessment also includes a formal in-depth review against the relevant standards by an independent external reviewer. This may take place in the context of an accreditation process for the service provider organisation or the organisation of which the service provider organisation is a sub-unit.

CODE 1 Yes

The service provider organisation routinely undertakes or undergoes formal assessment against the specified healthcare standards.

CODE 2 No

The service provider organisation does not routinely undertake or undergo formal assessment against the specified healthcare standards.

Collection methods: Record only one code.
