Data Element Concept:	Establishment—revenue (recoveries)

Value domain attributes

Representational attributes

Representation class:	Total
Data type:	Currency
Format:	N[N(8)]
Maximum character length:	9
Unit of measure:	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

Guide for use:	<p>Record as currency up to hundreds of millions of dollars. Rounded to nearest whole dollar.</p> <p>This metadata item relates to all revenue received by establishments except for general revenue payments received from state or territory governments.</p>
Comments:	<p>The Resources Working Party had considered splitting recoveries into staff meals and accommodation, and use of hospital facilities (private practice) and other recoveries.</p> <p>Some states had felt that use of facilities was too sensitive as a separate identifiable item in a national minimum data set. Additionally, it was considered that total recoveries was an adequate category for health financing analysis purposes at the national level.</p>

Source and reference attributes

Submitting organisation:	National minimum data set working parties
