Collection and usage attributes

Guide for use:	<p>This data element should only be reported in relation to child protection investigations that have been finalised (<i>Child protection notification—investigation status, code N = 1</i>). Once an investigation is finalised an outcome is recorded in the system.</p> <p>CODE 1 Yes</p> <p>A finalised investigation is classified as 'substantiated' where there is reasonable cause to believe that the child has been, is being or is likely to be abused or neglected or otherwise harmed. Substantiation does not necessarily require sufficient evidence for a successful prosecution and does not imply that treatment or case management was, or is to be, provided.</p> <p>CODE 2 No</p> <p>A finalised investigation is classified as 'not substantiated' where an investigation has concluded that there is no reasonable cause to suspect prior, current or future abuse or neglect or harm to the child.</p>
Collection methods:	<p>The outcome should be recorded once the assessment has been completed and a decision has been made as to whether a child has been, is being or is likely to be abused, neglected or otherwise harmed.</p> <p>This does not include cases where the investigation is still in progress.</p>
Comments:	<p>This is important to measure the proportion of investigations that are substantiated. It is also important to determine the outcomes of children who are in contact with community services departments.</p>
