Commonwealth State/Territory Disability Agreement NMDS (July 2008)

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	372123
Registration status:	Community Services (retired) , Superseded 11/11/2009
DSS type:	National Minimum Data Set (NMDS)
Scope:	<p>The Commonwealth State/Territory Disability Agreement National Minimum Data Set (CSTDA NMDS) and its national collection is:</p> <ul style="list-style-type: none">• a set of nationally significant data items or pieces of information that are collected in all Australian jurisdictions; and• an agreed method of collection and transmission.

The purpose of the CSTDA NMDS collection is to facilitate the annual collation of nationally comparable data about CSTDA-funded services, and to obtain reliable, consistent data with minimal load on the disability services field. Under the CSTDA, the Disability Administrators in all Australian jurisdictions are responsible for ensuring 'that CSTDA NMDS information will be comparable across all jurisdictions and years'.

Services within the scope of the collection are those for which funding has been provided, during the specified period, by a government organisation operating under the CSTDA. Therefore, if a service type outlet did not receive CSTDA funding for the 2006–07 collection (i.e. its CSTDA funding dollars for the financial year are zero), then details of this outlet should not be included in the data collection.

A funded agency may receive funding from multiple sources. Where a funded agency is unable to differentiate service users and/or staff according to funding source (i.e. CSTDA or other), they are asked to provide details of all service users and staff (for each service type).

Most agencies funded under the CSTDA are asked to provide information about:

- each of the service types they are funded to provide (i.e. service type outlets they operate);
- all service users who received support over a specified reporting period; and
- the CSTDA NMDS service type(s) the service user received.

The level of information a funded agency is asked to provide varies according to the particular service type (i.e. for each service type outlet).

Where services are provided to groups or families (e.g., 2.02, 2.04, or 2.05), details are only requested about the service user who is eligible for services, not their family or other group members. For example, if a family member/carer receives respite services, only details about the service user (i.e., the person with the disability) are required, not those of the family or carer.

Table 1:

Service type classification	Service type outlet –details required (except for those provided by the jurisdiction)	Service user – details required	Services received by each service user in the reporting period – details required

CSTDA Accommodation support 1.01-1.04, 1.08	All	All	All (except for data items on hours received – Client—amount of assistance, total hours NNN)
CSTDA Accommodation support 1.05-1.07	All	All	All
CSTDA Community support 2.01-2.05	All	All	All (except for data items on hours received – Client—amount of assistance, total hours NNN)
CSTDA Community support 2.06	All	All (except for community development activity within this service type)	All (except for community development activity within this service type)
CSTDA Community support 2.07	All	All	All (except for data items on hours received - Client—amount of assistance, total hours NNN)
CSTDA Community access 3.01, 3.03 Learning and life skills development	All	All	All
CSTDA Community access 3.02 Recreation/holiday programs(a)	All	Linkage key elements only (items 2a–2e)	The following items are optional: Service episode—episode start date; Service event—last service provision date; and Person—service received indicator
CSTDA Respite 4.01-4.05	All	All	All
CSTDA Employment 5.01-5.02	All	All (except for carer—primary status, residency status, age group – items 12b,c,e)	All (except for data items on hours received – Client—amount of assistance, total hours NNN)
CSTDA Advocacy, information and alternative forms of communication 6.01-6.05	All	None	None
CSTDA Other support 7.01-7.04	All (except Service provider organisation—number of clients, total people N[NNNN])	None	None

The data collection is based around the concept of a 'service type outlet', each of which provides only one service type from a discrete location. A funded agency may be funded to provide one or more service types through one or more service type outlets. For example, an agency may be funded under the CSTDA to provide residential accommodation and respite services from one location or funded to provide group homes in three separate locations. A separate service type outlet form is completed for each service type the agency is funded to provide under the CSTDA. If a service user receives more than one service type in the reporting period, a separate service user form is completed for each service type received.

Statistical units:

Service type outlets, service users

Reporting period:

CSTDA-funded agencies are asked to record key information about service users on an ongoing basis, so that they can transmit the required information at the end of each 'reporting period'. Most jurisdictions have set their reporting period (and will therefore ask for information to be transmitted) at the end of each financial year quarter. Some will still only require information to be transmitted at the end of a financial year.

Reference week:

The annual reference week is the 7-day week preceding the end of the financial year (i.e. 24 June to 30 June).

Snapshot day:

Collection of annual snapshot day data is essential to ensure continuity of data interpretation. The snapshot day for each year is generally the last Wednesday in June.

Privacy:

CSTDA NMDS collections conducted in each jurisdiction must comply with Commonwealth privacy legislation and established privacy and data principles.

Metadata items in this Data Set Specification

Seq	Metadata item	Obligation	Max occurs
No.			

- [Client—amount of assistance, total hours NNN](#)

Conditional 2

DSS specific information:

This data element must be collected twice within the CSTDA NMDS.

1. The number of hours of support received by a service user for a service type for the week preceding the end of the reporting period (the 7-day **reference** week); and
2. The number of hours of support received by a service user for a service type for a **typical** 7-day week.

The total hours reported should be rounded up to the nearest whole hour.

Where less than one hour was received, agencies may record '900'.

Note: The concept of a typical week may not apply to some service users. In these cases service type outlets may calculate this data element as an average of the actual hours received by the service user over the reporting period.

This item may be collected in one of two ways:

- As an average of the actual hours received by this service user in a typical week (over the reporting period). That is, this item is derived from the 'total hours received during the reporting period'.
- OR
- The service user's usual or typical weekly pattern of support while receiving your service in the reporting period. This enables service type outlets to indicate whether or not the reference week was typical.

If a service type outlet is funded to provide service type 2.06 Case management, local coordination and development, the following rules apply for calculating *Hours of assistance*:

- hours of assistance received by service users in terms of time spent on their behalf coordinating, managing or arranging brokerage of other services for service users should be reported;
- hours of assistance received by service users in terms of actual services delivered, that have been arranged, purchased or brokered by a service type outlet (as part of providing service type 2.06) should not be reported;

If a service type outlet sub-contracts the provision of part or all of a service type (other than 2.06) it is funded to provide to another agency, then it is responsible for providing relevant details about the sub-contracted activity (e.g. in-home accommodation support provider sub-contracting the provision of some in-home accommodation support to another agency, which may or may not be CSTDA-funded). Hours of assistance received that are sub-contracted to another agency should be included by the service type outlet that has done the sub-contracting, and should not be reported by the agency that has been sub-contracted (to deliver the services) by the service type outlet.

- [Date—estimate indicator, code N](#)

Conditional 1

DSS specific information:

If the service user's date of birth has been entered as 01/01, because the exact date of birth was not known, then the date estimate flag box should be ticked.

Seq No.	Metadata item	Obligation	Max occurs
-	Informal carer—co-residency status, code N	Conditional	1
	<p>DSS specific information:</p> <p>It is recognised that two or more people may equally share the caring role (e.g. mother and father) however, for the purposes of the CSTDA NMDS collection, characteristics are only required for one of these carers. The expressed views of the service user and/or their carer(s) or significant other should be used as the basis for determining this.</p> <p>An informal carer is someone, such as family member, friend or neighbour, who has been identified as providing regular and sustained care and assistance to the person requiring support.</p>		
-	Informal carer—primary status, code N	Conditional	1
	<p>DSS specific information:</p> <p>This data element should only be reported in relation to service users that have a carer (Person—Informal carer existence indicator, code N = 1).</p>		
-	Informal carer—relationship to care recipient, CSTDA code N[N]	Conditional	1
	<p>DSS specific information:</p> <p>This data element should only be reported in relation to service users that have a carer.</p> <p>A service user may have more than one family member or friend providing them with care and assistance. In such circumstances, this data element relates to the carer who is identified as providing the most significant amount and type of care and assistance. It is recognised that two or more people may equally share the caring role (e.g. mother and father) however, for the purposes of the CSTDA NMDS collection, characteristics are only requested for one of these carers. The expressed views of the service user and/or their carer or significant other should be used as the basis for determining which carer should be considered to be the main carer in this regard.</p>		
-	Parent/guardian—receipt of Carer Allowance (Child) indicator, code N	Conditional	1
	<p>DSS specific information:</p> <p>This data element should not be reported for CSTDA service users aged 16 years or more.</p> <p>CODE 3 is used to record responses where the item is 'not known'.</p>		
-	Person (address)—Australian postcode, code (Postcode datafile) {NNNN}	Conditional	1
	<p>DSS specific information:</p> <p>In the CSTDA NMDS, this data element refers to the postcode of a service user's usual residence ('usual' means 4 or more days per week on average).</p> <p>This data element is used in CSTDA to capture the postcode of the 'geographic location' of a person, not their postal address postcode. The CSTDA NMDS collection defines 'usual' as where the person usually resides for four or more days per week on average.</p>		
-	Person (with a disability)—disability group, CSTDA code N(N)	Conditional	1

Seq No.	Metadata item	Obligation	Max occurs
-	Person—activity and participation life area, code (ICF 2001) AN[NNN]	Conditional	1
	<p>DSS specific information:</p> <p>This data element should be reported in conjunction with the data element 'assistance with activities' regarding the level of help and/or supervision that a CSTDA service user requires.</p> <p>Mapping to ICF codes.</p> <p>a) Self-care - Self-care (d510-d599)</p> <p>b) Mobility - Mobility (d410-d499)</p> <p>c) Communication - Communication (d310-d399)</p> <p>d) Interpersonal interactions and relationships - Interpersonal interactions and relationships (d710-d799)</p> <p>e) Learning, applying knowledge and general tasks and demands - Learning and applying knowledge (d110-d199) and General tasks and demands (d210-d299)</p> <p>f) Education - Education (d810-d839)</p> <p>g) Community (civic) and economic life - Community, social and civic life (d910-d999)</p> <p>h) Domestic life - Domestic life (d610-699)</p> <p>i) Working - Work and employment (d840-859)</p>		
-	Person—age group, CSTDA code N	Conditional	1
-	Person—communication method, code N	Conditional	1
	<p>DSS specific information:</p> <p>If the communication method varies over time and it is difficult to say what the usual method is, please report the most effective method during the reference week.</p> <p>This data item is used in conjunction with Effective communication indicator.</p>		
-	Person—country of birth, code (SACC 2008) NNNN	Conditional	1
	<p>DSS specific information:</p> <p>It is recommended that the 10 most frequently reported countries of birth are listed on data collection forms to simplify data collection and minimise coding load on service type outlets and funding departments. Where the country of birth is known but is not specified in the classification below, (i.e., is 'other country'), funded agencies should specify it on primary data collection forms. These will then be coded by funding departments to the appropriate SACC code.</p>		

Seq No.	Metadata item	Obligation	Max occurs
-	Person—date of birth, DDMMYYYY	Conditional	1
	<p>DSS specific information:</p> <p>In the CSTDA collection, if the age of the person is known, the age of the person should be used to derive the person's year of birth. If the person's age is not known, an estimate of the person's age should be used to calculate an estimated year of birth. An actual or estimated year of birth should then be converted to an estimated date of birth according to the following convention: 01/01/estimated year of birth. Where the date of birth is estimated, this should be indicated when the data is submitted using the date estimate indicator.</p> <p>It is important that service type outlets do not record estimated dates of birth by using '00' for the day, month or year as this would not be considered a valid date by the system processing the data.</p>		
-	Person—effective communication indicator, code N	Conditional	1
	<p>DSS specific information:</p> <p>This item is used in conjunction with Communication method.</p>		
-	Person—funding indicator, code N	Conditional	1
	<p>DSS specific information:</p> <p>Examples of individualised funding include (from disability services):</p> <ul style="list-style-type: none"> • in Western Australia - Intensive Family Support funding; • in Queensland - Adult Lifestyle Support Packages, family support programs and post-school programs; • in Australian Government-funded programs - Case Based Funding (CBF) and Futures for Young Adults (FFYA); • in the ACT - Individual Support Packages; • in Victoria - Futures for Young Adults (FFYA), Flexible care packages (Making a Difference (MaD), HomeFirst, Family Choice Program and Continuity of Care State-wide Fund); • in Tasmania—Individual Support Program (ISP), and Supporting Individual Pathways; and • in the Northern Territory - Client Focussed Funding (CFF). <p>If a service outlet manages a program or package that does not meet one or more of the criteria for individualised funding then it should not be reported as an individualised package.</p> <p>This data element assists in monitoring trends over time in individualised funding.</p>		
-	Person—Indigenous status, code N	Conditional	1
-	Person—informal carer existence indicator, code N	Conditional	1
	<p>DSS specific information:</p> <p>It is recognised that two or more people may equally share the caring role (e.g. mother and father) however, for the purposes of this collection, characteristics are only requested for one of these carers.</p> <p>It is also recognised that the roles of parent and carer, particularly in the case of children, are difficult to distinguish. Parents of children should generally be recorded as a carer if they provide more care to their child than would be typical of the care provided to a child of the same age without a disability.</p>		

Seq No.	Metadata item	Obligation	Max occurs
-	Person—interpreter service required, yes/no code N	Conditional	1
	<p>DSS specific information:</p> <p>Whether an interpreter service is required as perceived by the person.</p> <p>Yes includes spoken language other than English and non-spoken communication.</p> <p>This item is used in conjunction with the type of interpreter services required by a person.</p>		
-	Person—labour force status, code N	Conditional	1
	<p>DSS specific information:</p> <p>This data element should only be reported for service users aged 15 years or more.</p>		
-	Person—letters of family name, text XXX	Conditional	1
-	Person—letters of given name, text XX	Conditional	1
-	Person—living arrangement, code N	Conditional	1
	<p>DSS specific information:</p> <p>The CSTDA NMDS defines 'usual' as where the person usually resides for four or more days per week on average. If it is difficult to determine the person's 'usual' residential setting for the reporting period, the setting the person resided in during the reference week, and their living arrangements in that setting, should be reported.</p> <p>In most instances, homeless people should be coded as living alone.</p> <p>People living in residential settings such as group homes and hostels may consider that they live alone or live with others. The expressed views of the service user should be used to determine whether they live alone or with others.</p> <p>Code 3 Lives with others includes sharing with friends or a carer (where the carer is not a family member).</p>		
-	Person—need for assistance with activities in a life area, CSTDA code N	Conditional	1
-	Person—residential setting, CSTDA code N[N]	Conditional	1
-	Person—service received indicator, code N	Conditional	1
	<p>DSS specific information:</p> <p>In the CSTDA NMDS, this data element refers to whether or not the person received the CSTDA-funded service type on the specified snapshot date.</p> <p>Actual snapshot dates are agreed upon by funding departments.</p> <p>This data element will be reported by service type outlets once per year, regardless of whether service type outlets provide quarterly or six-monthly data transmissions to funding departments.</p>		

Seq No.	Metadata item	Obligation	Max occurs
-	Person—sex, code N	Conditional	1
<i>DSS specific information:</i>			
Code 3 Intersex or indeterminate is not used in the CSTDA NMDS collection.			
-	Person—source of cash income (principal), CSTDA code N	Conditional	1
-	Person—type of interpreter service required, code N	Conditional	1
<i>DSS specific information:</i>			
This data element must be completed if a response of Yes (code 1) is recorded in response to the question of whether an interpreter service is required.			
-	Record—identifier (CSTDA), N[N(7)]	Conditional	1
-	Service episode—episode end date, DDMMYYYY	Conditional	1
<i>DSS specific information:</i>			
This data element should only be reported for CSTDA service users who have ceased receiving CSTDA-funded services from the service type outlet.			
A service user is considered to leave a service when either:			
<ul style="list-style-type: none"> the service user ends the support relationship with the service outlet; or the service outlet ends the support relationship with the service user. 			

Seq No.	Metadata item	Obligation	Max occurs
-	Service episode—episode start date, DDMMYYYY	Conditional	1
DSS specific information:			
<p>A service is a support activity delivered to a person, in accord with the CSTDA. Services within the scope of the collection are those for which funding has been provided, during the specified period, by a government organisation operating under the CSTDA.</p> <p>A service user is considered to have started receiving a CSTDA-funded service type once they have been judged as eligible for the service type and have actually received support within that service type. Support may include assessment processes once the service user has been accepted as eligible for the service type. However it does not include assessment where assessment is for eligibility or for a place on a waiting list. Support does not generally include requests for information or phone queries.</p> <p>At times, an outlet may only provide the service user with one-off assistance. For example, a service user may only require respite care on one occasion. Where this assistance is CSTDA-funded, the general rule is that all service users details should be recorded as required for that service type. If the service user is not expected to use the service outlet again, an exit date and appropriate main reason for service cessation should be reported.</p> <p>If a service user formally exits a service and then 're-enters' a service, an exit date should be reported and a new service start date should be reported.</p> <p>Service users who commence services after 1 October 2002, should have their actual commencement date recorded (i.e. the date this service type was first received by the service user from the service type outlet).</p> <p>Existing service users (i.e. those who commenced services prior to October 2002), should either be recorded as commencing the service type on:</p> <ul style="list-style-type: none"> • their known service start date, for example, a service user starting on 2 September 2002 may be recorded as 02092002; • an estimate of their service start date by recording '0101' for the day and month and estimating the year. For example, if a service user has been receiving support from a service type outlet for about 5 years, the outlet would record the Service start date as 01011997'; or • on 1 October 2002 (i.e. 01102002). This option is used if the start date is unknown or cannot be recorded for some other reason. <p>Start date, in conjunction with last service provision date, or exit date, gives some indication of length of stay of service users in the CSTDA program and of the intensity of service provision. In conjunction with the data element exit date, it can also be used to identify the number of CSTDA-funded service users as at the end of the CSTDA NMDS reporting period, and at any time.</p>			
-	Service episode—service cessation reason, CSTDA code N[N]	Conditional	1
-	Service event—last service provision date, DDMMYYYY	Conditional	1
DSS specific information:			
<p>This item indicates the last time a person received a service during a reporting period. It does not indicate the date that they exited the service, or the date in which the service user's form was completed.</p> <p>This item may be used as an indicator of the 'active' or 'inactive' status of service users, for a particular reporting period. It can also be used to calculate the length of time service users received a CSTDA-funded service type for those who have not exited the program and so not have an exit date (end date).</p>			

Seq No.	Metadata item	Obligation	Max occurs
-	Service provider organisation (address)—Australian postcode, code (Postcode datafile) {NNNN}	Mandatory	1
	<p>DSS specific information:</p> <p>In the CSTDA NMDS, this data element refers to the postcode of the location of the service type outlet address and not the postal address.</p> <p>If the service type outlet is provided in the person's home, the postcode of the service base from which the provider operates is to be entered, not that of the person.</p> <p>If recreation services are provided in various locations, the postcode of the service base from which the provider operates is to be entered.</p> <p>This data element is reported by funding departments in relation to all service type outlets.</p>		
-	Service provider organisation—Australian state/territory identifier, code N	Mandatory	1
	<p>DSS specific information:</p> <p>The CSTDA NMDS uses the AIHW order based on the population of the State or Territory.</p> <ol style="list-style-type: none"> 1. New South Wales 2. Victoria 3. Queensland 4. Western Australia 5. South Australia 6. Tasmania 7. Australian Capital Territory 8. Northern Territory <p>Code 9 Other territories (Cocos (Keeling) Islands, Christmas Island and Jervis Bay Territory) is not applicable to CSTDA-funded services.</p> <p>This data element is used in conjunction with the Level of Government to identify the source of funding and the jurisdiction in which funds are allocated (funding jurisdiction).</p>		
-	Service provider organisation—full financial year funding indicator, yes/no code N	Mandatory	1
	<p>DSS specific information:</p> <p>This data element should be reported by all service type outlets.</p>		
-	Service provider organisation—funding allocated, total Australian currency N[N(8)]	Mandatory	1
	<p>DSS specific information:</p> <p>CSTDA funding data should relate to the most recent financial year. This data element needs to be reported for all services funded under the CSTDA, both those delivered by government and non-government providers. Where possible CSTDA funding data should be linked to Service type outlet identification numbers. Where the funding information is not available at the Service type outlet level, funding departments are requested to allocate the funding information for dollars to either a group of service type outlets or to a Funded agency.</p> <p>Total CSTDA funds can be provided by the jurisdiction/funding department at various levels-service type outlet, funded agency, or service group level.</p>		

Seq No.	Metadata item	Obligation	Max occurs
-	Service provider organisation—funding source, level of government code N DSS specific information: The data element is used in conjunction with the State and Territory identifier of the service type outlet to identify the jurisdiction in which funds are allocated. Note: Local Government is not applicable to CSTDA funded service type outlets as a source of funding.	Mandatory	1
-	Service provider organisation—geographic location (SLA), code (ASGC 2007) NNNNN DSS specific information: Where this data element is not able to be reported, postcode may be reported instead. Either the geographic location or postcode should be reported by funding departments in relation to all Service type outlets.	Mandatory	1
-	Service provider organisation—hours worked (paid staff), total NNNNN DSS specific information: This item is collected for the reference week and a typical week. Reference week: The actual total hours worked by all paid staff for a service type outlet in the 7-day week preceding the end of the reporting period. Typical week: The total hours worked by all paid staff for a service type outlet in a typical 7-day week. For funded agencies with multiple service type outlets (and where paid staff hours per service type outlet are not known), all paid staff should be apportioned across service type outlets. To apportion paid staff across different service type outlets it is recommended that agencies, for instance: Use fortnightly rosters as a starting point; apportion total paid staff hours across funded service types; divide this figure by two to get weekly paid staff hours for the week preceding the end of the reporting period; and record the apportioned paid staff hours to the relevant service type outlet. Paid staff hours per service type outlet are requested irrespective of the source of funding. Staff hours information is requested in this way to: Increase the comparability of responses across service type outlets (i.e. it is considered more feasible for agencies to provide information in this way using existing administrative mechanisms); and provide information more closely related to the receipt of services by service users (i.e. in recognition that services are provided to service users partly as a result of CSTDA funding and partly as a result of funding from other sources and the support of volunteers). If a service type outlet is funded to provide service type 2.06 Case management, local coordination and development, the following rules apply for calculating paid staff hours: Paid staff hours relating to the case coordination/management/ brokerage activities service type outlets undertake should be recorded (including administrative time, board member time etc. as above); staff hours that are arranged, purchased or brokered by a service type outlet to another agency as part of providing service type 2.06 should not be recorded. If a service type outlet sub-contracts the provision of part or all of a service type (other than 2.06) they are funded to provide to another agency: The service type outlet that is sub-contracting another agency is responsible for providing relevant details about the sub-contracted activity (e.g. in-home	Mandatory	2

Seq No.	Metadata Item	Obligation	Max occurs
---------	---------------	------------	------------

accommodation support provider sub-contracting the provision of some in-home accommodation support to another agency, which may or may not be CSTDA-funded). Paid staff hours that are sub-contracted in this way should be included with the paid staff hours allocation for the service type outlet (and the sub-contractor outlet should not report these hours, if they are also included in the CSTDA NMDS).

These rules are designed to avoid double counting and duplication of effort by funded agencies.

Reference week: Collection method

This data element reports hours worked by paid staff on behalf of the service type outlet both directly delivered to service users, and indirectly to service users (e.g. indirect hours such as related committee meetings).

For the calculation of paid staff hours worked the following should be included:

- Paid staff hours worked by administrative staff, managers etc. (i.e. indirect staff relating to this service type outlet).
- Paid staff hours worked by Board members relating to the service type.
- Paid staff hours worked on committees or at meetings relevant to the service type.
- Staff hours worked as paid overtime.
- Staff hours worked while staff receiving payment for sleepover duties.
- Paid staff hours worked by staff contracted to clean premises.
- Staff hours worked by staff receiving training relevant to the service type.

The following should be excluded from paid staff hours worked:

- Staff hours for workers on leave (including public holidays, paid/unpaid sick leave). This data element relates to staff hours worked, not staff hours paid for).
- Staff hours normally worked in positions that are currently vacant.
- Staff hours allocated to non-CSTDA service users

Typical week: Collection method

As above but include:

- Staff hours for workers on leave (including public holidays, paid/unpaid sick leave). This data element relates to staff hours paid for).
- Staff hours normally worked in positions that are currently vacant.

- [Service provider organisation—hours worked \(volunteer/unpaid staff\), total NNNNN](#) Mandatory 2

DSS specific information:

This item is collected for the reference week and a typical week.

Reference week: The actual total hours worked by all volunteer/unpaid staff for a service type outlet in the 7-day week preceding the end of the reporting period.

Typical week: The total hours worked by all volunteer/unpaid staff for a service type outlet in a typical 7-day week.

This data element reports hours worked by volunteer/unpaid staff on behalf of the service type outlet both directly delivered to service users, and indirectly to service users (e.g. indirect hours such as related committee meetings).

For funded agencies with multiple service type outlets (and where volunteer/unpaid staff hours per service type outlet are not known), all volunteer/unpaid staff should be apportioned across service type outlets. To apportion volunteer/unpaid staff across different service type outlets it is recommended that agencies, for instance:

- use fortnightly rosters as a starting point;
- apportion total volunteer/unpaid staff hours across funded service types;
- divide this figure by two to get weekly volunteer/unpaid staff hours for the week preceding the end of the reporting period; and

If a service type outlet is funded to provide service type 2.06 Case management, local coordination and development, the following rules apply for calculating volunteer/unpaid staff hours:

- volunteer/unpaid staff hours relating to the case coordination/ management/brokerage activities service type outlets undertake should be recorded (including administrative time, board member time etc. as above);
- volunteer/unpaid staff hours that are arranged by a service type outlet for another agency to provide as part of providing service type 2.06 should not be recorded.

If a service type outlet sub-contracts the provision of part or all of a service type (other than 2.06) they are funded to provide to another agency:

The service type outlet who is sub-contracting another agency is responsible for providing relevant details about the sub-contracted activity (e.g. in-home accommodation support provider sub-contracting the provision of some in-home accommodation support to another agency, which may or may not be CSTDA-funded). Volunteer/unpaid staff hours that are sub-contracted in this way should be included with the volunteer/unpaid staff hours allocation for the service type outlet (and the sub-contractor outlet should not include these hours in their service type outlet return, if they are also included in the CSTDA NMDS).

These rules are designed to avoid double counting and duplication of effort by funded agencies/service type outlets.

Reference week: Collection methods

For the calculation of volunteer/unpaid staff hours worked, the following should be included:

- Volunteer/unpaid staff hours worked by administrative staff.
- Volunteer/unpaid staff hours worked by Board members relating to the service type.
- Volunteer/unpaid staff hours worked on committees or at meetings relevant to the service type.
- Staff hours worked as unpaid work by usually paid or contract staff.
- Volunteer/unpaid staff hours worked by staff contracted to clean premises.
- Staff hours worked by staff receiving training relevant to the service type.

The following should be excluded from volunteer/unpaid staff hours worked:

- Staff hours for workers on leave (including public holidays).
- Staff hours normally worked in positions that are currently vacant.

Typical week: Collection methods

As above but include:

- Staff hours for workers on leave (including public holidays).
- Staff hours normally worked in positions that are currently vacant.

- [Service provider organisation—income tax exempt indicator, code N](#)

Conditional 1

Conditional obligation:

'Non-government' must be selected as the sector type of the service type outlet.

DSS specific information:

This data element should be reported by funding departments in relation to all non-government service type outlets.

Where a [service type outlet](#) has a formal relationship with a [CSTDA funded agency](#) then the government/non-government sector of the funded agency should generally be recorded.

This data element is used in conjunction with the level of government to determine the type of government or non-government sector (agency sector) to which the funded agency (or service type outlet) belongs.

- [Service provider organisation—level of government, code N](#)

Mandatory 2

DSS specific information:

The level of government to which the CSTDA funded agency belongs to.

This item is used in conjunction with the tax exempt indicator of the funded agency to describe the agency sector or type of government or non-government sector to which the funded agency (or service type outlet) belongs.

It is also used in conjunction with the State/Territory identifier to determine the funding jurisdiction. 'Government' must be selected as the sector of this service type outlet.

- [Service provider organisation—number of clients, total people N\[NNNN\]](#)

Mandatory 1

DSS specific information:

In the CSTDA NMDS, this data element refers to the number of service users receiving CSTDA-funded services of a particular service type.

The number of people who received a service during the whole reporting period is required, not just those who received a service in a reference week.

The service type outlet must have allocated some of its resources (more than 15 minutes) to the person during the reporting period, such as to a person residing in agency-operated accommodation, attending respite care, or attending a recreation service. Service users should not be counted if they have only made requests for information, minor phone queries etc.

Service type outlets 6.01-6.05 count the following:

6.01 (Advocacy) – number of people who have received advocacy services in the reporting period.

6.02 (Information/referral) – number of people making a request for information or referral.

6.03 (Combined information/advocacy) – as for 6.01 and 6.02.

6.04 (Mutual support/self-help groups) – number of people attending group sessions (i.e. if an individual attends a group session every Wednesday in the reporting period, the person should only be counted once for the reporting period.).

6.05 (Alternative formats of communication) – estimated number of people accessing the output from the service.

It may not always be feasible to count the actual number of service users receiving services from service type outlets 6.01–6.05. Where this is not possible, service type outlets are asked to estimate the number of service users accessing the service. For example, a CSTDA-funded radio station (6.05) should estimate the number of people who listen to the radio station. Where there are a number of people potentially receiving a 6.01–6.05 service simultaneously (e.g. an interpreter at a conference), estimate the number of people that are benefiting from the service (e.g. how many people actually need the interpreter). If this is not possible, all people present should be counted as service users.

A funded agency may receive funding from multiple sources – however for CSTDA NMDS purposes, only those services provided using CSTDA funds should be recorded. Where a funded agency is unable to differentiate all data according to funding source (i.e. CSTDA or other), they are asked to provide details of all service users and staff (for each service type). For example, if a service type outlet providing early childhood intervention is partly funded through donations or fund raising, and partly by CSTDA funds, all service users are counted who receive this service during the reporting period. This is the case unless the accounting and staffing methods of the service type outlet enable reporting separately. The total number of people receiving this service type (as indicated in response to this data item) will usually be equal to the number of Service User Forms completed by the service type outlet. In some cases 'number of service users' may be greater than the number of Service User Forms completed by the service type outlet. This may be because of service users who have not consented for their information to be transmitted as part of the CSTDA NMDS; they should still be included in the 'number of service users'.

Seq No.	Metadata item	Obligation	Max occurs
-	Service provider organisation—number of service operation days (7 day period), total N[N]	Mandatory	1
DSS specific information:			
This data element is reported by all service type outlets.			
Service type outlets 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of days per week of operation.			
-	Service provider organisation—number of service operation hours (24 hour period), total NN	Mandatory	1
DSS specific information:			
This data element is reported by all service type outlets.			
Service type outlets 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of days per week of operation.			
-	Service provider organisation—number of service operation weeks (calendar year), total NN	Mandatory	1
DSS specific information:			
The number of weeks the service type outlet usually operates. This data element is reported by all service type outlets			
A service type outlet is considered to be operating whenever a service is provided to service users (e.g. if a service type outlet closes for only two weeks over the Christmas period it should be reported as operating for 50 weeks per year).			
Service type outlets 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of weeks of operation.			
-	Service provider organisation—organisation identifier (CSTDA funded agency), X[X(7)]	Mandatory	1
-	Service provider organisation—organisation identifier (CSTDA service type outlet), XX[X(12)]	Mandatory	1
-	Service provider organisation—sector, code N	Mandatory	1
DSS specific information:			
This item is used in the CSTDA NMDS to determine the type of government or non-government sector to which the funded agency (or service type outlet) belongs. Where 'Government' is selected, then the Level of government must also be recorded.			
Where 'Non-government' is selected, then the 'Tax exempt indicator' must also be recorded.			
-	Service provider organisation—service activity type, CSTDA support service type code N.NN	Mandatory	1
