Government health expenditure organisation expenditure capital consumption data element cluster

Identifying and definitional attributes

Metadata item type: Data Set Specification

METEOR identifier: 372160

Registration status: Health, Superseded 01/04/2009

DSS type: Data Set Specification (DSS)

Scope: The scope of this data cluster is direct government and government-funded

expenditure by a health industry relevant organisation consisting of consumption of fixed capital (depreciation). These are all either health and health–related goods and services or non-health care goods and services to support the health industry

relevant organisation's activities.

Collection and usage attributes

Guide for use: Expenses are to be reported in millions to the nearest 100,000 e.g. \$4.1 million.

Collection methods: This data is collected according to the organisation's main activity types and type of

health or health related function relevant to each State and Territory. This is supplied by the GHE and specified in the reporting guidelines as provided by the

AIHW.
