Definition: A service that is considered by the state, territory or Australian Government funding authorities as a service that:

- has the workforce capacity to provide specialised mental health services; and
- employs suitably trained mental health staff to provide rehabilitation, treatment or extended care on-site:
 - to consumers residing on an overnight basis;
 - in a domestic-like environment; and
- encourages the consumer to take responsibility for their daily living activities.

These services include those that employ mental health trained staff on-site 24 hours per day and other services with less intensive staffing (but the trained staff must be on site for a minimum of 6 hours a day and at least 50 hours per week).

Suitably trained residential mental health care staff may include:

- individuals with Vocational Education and Training (VET) qualifications in community services, mental health or disability sectors;
- individuals with tertiary qualifications in medicine, social work, psychology, occupational therapy, counselling, nursing or social sciences; and
- individuals with experience in mental health or disability relevant to providing mental health consumers with appropriate services.

Context: Specialised residential mental health services.
