

Alcohol and other drug treatment services NMDS 2010-11

Identifying and definitional attributes

Metadata item type: Data Set Specification

METEOR identifier: 374211

Registration status:

- [Health](#), Superseded 24/12/2010

DSS type: National Minimum Data Set (NMDS)

Scope: This metadata set is nationally mandated for collection and reporting.

Publicly funded government and non-government agencies providing alcohol and/or drug treatment services. Including community-based ambulatory services and outpatient services.

The following services are currently not included in the coverage:

- services based in prisons and other correctional institutions;
- agencies that provide primarily accommodation or overnight stays such as 'sobering-up shelters' and 'half-way houses';
- agencies that provide services concerned primarily with health promotion;
- needle and syringe programs;
- agencies whose sole function is to provide prescribing and/or dosing of methadone; and
- acute care and psychiatric hospitals, or alcohol and drug treatment units that report to the admitted patient care National Minimum Data Set and do not provide treatment to non-admitted patients.

Clients who are on a methadone maintenance program may be included in the collection where they also receive other types of treatment.

Collection and usage attributes

Statistical unit: Completed treatment episodes for clients who participate in a treatment type as specified in the data element Episode of treatment for alcohol and other drugs—treatment type (main), code N.

Collection methods: Data to be reported in each agency on completed treatment episode and then forwarded to state/territory authorities for collation.

National reporting requirements

State and territory health authorities provide the data to the Australian Institute of Health and Welfare for national collation, on an annual basis.

Periods for which data are collected and nationally collated

Financial years ending 30 June each year.

Implementation start date: 01/07/2010

Implementation end date: 30/06/2011

Source and reference attributes

Submitting organisation: National Health Information Group
