Collection and usage attributes

Statistical unit: The statistical unit for this data set is the Registered dental and allied dental health professional.

A Registered dental and allied dental health professional refers to a person who is currently registered, or who has been registered, with the Australian Health Practitioner Regulation Agency as a dental and allied dental health professional at any time during the reference period.

Guide for use: Data elements in this cluster assist in describing the type and distribution of services of registered dental and allied dental health professionals in their second job. The cluster forms part of the Registered dental and allied dental labour force DSS, along with *Main job of registered dental and allied dental health professional* cluster, *Work setting hours* cluster, and a range of other data elements.

Data elements in this cluster are collected only from those dental and allied dental health professionals employed in more than one job in the profession. Data elements in the *Main job of registered dental and allied dental health professional* cluster are collected from all dental and allied dental health professionals employed in the profession. All other workforce data elements in the Registered dental and allied dental labour force DSS are collected from all dental and allied dental health professionals registered in the profession, and relate to all jobs held in the profession.

Registered health professionals on leave at the time of registration are asked to report based on the job that is usually their second job.

The second job:

- includes time spent travelling to home visits or calls out;
- excludes other time travelling between work locations; and
- excludes unpaid professional and/or voluntary activities.
