

Funded agency under the National Disability Agreement (NDA)

Identifying and definitional attributes

Metadata item type: Glossary Item
METEOR identifier: 386548
Registration status:

- [Disability](#), Standard 29/02/2016

Definition: A funded agency is usually a legal entity providing one or more types of National Disability Agreement (NDA) service types to service users at one or more different locations. The organisational unit that delivers a single service type at or from a discrete location is described as a service type outlet. Where a funded agency provides only one service type, the service type outlet and the funded agency are one and the same entity.
