Format:	X[X(39)]
Maximum character length:	40

	Value	**Meaning**

Permissible values:

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: This data element refers to the ward or clinical area within the healthcare facility where the patient was located. This information will be facility specific, so local conventions for naming wards should be used, for example Maternity Ward, or Emergency Department.
