

# Health

Health has been defined as 'a state of complete physical, mental and social wellbeing and not merely the absence of disease and infirmity' (WHO 1946). As a part of the welfare framework, good health represents quality of life in terms of longevity, functioning and participation, all of which play an important role in everyday living. Further subdimensions that represent different aspects of health are;

Life expectancy,

Expected years of life lived with disability,

Infant mortality,

Mental health,

Physical activity, and

Prevalence of obesity

## Indicators in this framework

- [National Disability Agreement: c\(1\)-Proportion of the potential population accessing disability services, 2012 Community Services \(retired\)](#), Superseded 23/05/2013
- [National Disability Agreement: c\(2\)-Proportion of the potential population accessing disability services, 2012 Community Services \(retired\)](#), Superseded 23/05/2013
- [National Disability Agreement: d-Proportion of people with disability who are satisfied with the range of disability service options and quality of support received, 2012 Community Services \(retired\)](#), Superseded 23/05/2013
- [National Disability Agreement: f\(1\)-Number of Indigenous people with disability receiving disability services as a proportion of the Indigenous potential population requiring services, 2012 Community Services \(retired\)](#), Superseded 23/05/2013  
[Indigenous](#), Standard 11/09/2012
- [National Disability Agreement: f\(2\)-Number of Indigenous people with disability receiving disability services as a proportion of the Indigenous potential population requiring services, 2012 Community Services \(retired\)](#), Superseded 23/05/2013  
[Indigenous](#), Standard 11/09/2012
- [National Disability Agreement: h-Proportion of carers of people with disability accessing support services to assist in their caring role \(h-interim\), 2012 Community Services \(retired\)](#), Superseded 23/05/2013
