Chemotherapy completion date

Identifying and definitional attributes

Metadata item type: Property

METEOR identifier: 393546

Registration status: [Health](#), Standard 07/12/2011

Definition: The date on which chemotherapy was completed.

Chemotherapy is the treatment of disease by means of chemical substances or drugs; the term is usually used in reference to neoplastic disease. Chemotherapy for the treatment of cancer achieves its antitumour effect through the use of antineoplastic drugs that inhibit the reproduction of cancer cells by interfering with DNA synthesis and mitosis.

Chemotherapy may involve treatment with a single agent or a combination of two or more drugs that are administered in treatment cycles and according to a prespecified regimen or protocol.
