National Non-admitted Patient Emergency Department Care Database

Identifying and definitional attributes

Item type:	Data Source
METEOR identifier:	394733
Description:	The National Non-admitted Patient Emergency Department Care Database (NNAPEDCD) is compiled from data supplied by the state and territory health authorities. It is a collection of electronic confidentialised summary records for non-admitted patients treated in public hospital emergency departments. The scope of the collection is public hospitals that were categorised for the previous financial year as peer groups A (Principal referral and Specialist Women's and Children's hospitals) and B (Large hospitals).
