National Healthcare Agreement: P67-Capital expenditure on health and aged care facilities as a proportion of capital consumption expenditure on health and aged care facilities, 2010

Identifying and definitional attributes

| | |
|--------------------------------|--|
| Metadata item type: | Indicator |
| Indicator type: | Indicator |
| Short name: | Capital expenditure on health and aged care facilities as a proportion of capital consumption expenditure on health and aged care facilities, 2010 |
| METEOR identifier: | 395147 |
| Registration status: | Health , Superseded 08/06/2011 |
| Description: | Government funded capital expenditure on publicly-owned health and aged care facilities as a proportion of government funded capital consumption expenditure on publicly-owned health and aged care facilities. |
| Indicator set: | National Healthcare Agreement (2010) Health , Superseded 08/06/2011 |
| Outcome area: | Sustainability Health , Standard 07/07/2010 |
| Data quality statement: | National Healthcare Agreement: P67-Capital expenditure on health and aged care facilities as a proportion of capital consumption expenditure on health and aged care facilities, 2010 QS Health , Superseded 08/06/2011 |

Collection and usage attributes

| | |
|---------------------------------|--|
| Computation description: | As defined by the Australian Bureau of Statistics (ABS) Government Finance Statistics - see ABS publication <i>Australian System of Government Finance Statistics: Concepts, Sources and Methods 2005</i> (ABS cat. no. 5514.0). Limited to government expenditure on publicly-funded facilities. |
| Computation: | Numerator ÷ Denominator |
| Numerator: | Government gross fixed capital formation on publicly owned health and aged care facilities |

Annual

Data custodian

Australian Bureau of Statistics

Accountability attributes

Reporting requirements: National Healthcare Agreement

Organisation responsible for providing data: Australian Institute of Health and Welfare

Further data development / collection required: Specification: Interim.
Greater standardisation of definitions required—particularly the asset capitalisation cut-off value. Add new data item on capital expenditure to the existing Government Health Expenditure National Minimum Data Set (NMDS); consult regarding scope and inclusions.

Other issues caveats: The ideal indicator in this area is a measure of the total real value of the capital stock and its change over time, and the average age of capital equipment. It is possible to develop such a measure over time, but because of inconsistencies in accounting practices between jurisdictions and across the private and public sectors, it is difficult to develop a measure which is comparable.
