

Accessibility

The ease with which the information can be obtained. A key component of quality as it relates directly to the capacity of users to identify the availability of relevant information, and then to access it in a convenient and suitable manner. Aspects of accessibility which should be addressed, where relevant, include:

- how to access relevant publications and reports, including hotlinks to website
- how to access relevant data sets, including hotlinks
- information on how to access data which is not available online or in reports,
- information on how to seek access to very detailed data or to unit record data
