# National Indigenous Reform Agreement: P07-Levels of physical activity, 2010

### Identifying and definitional attributes

Metadata item type: Indicator Indicator type: Indicator

**Short name:** Levels of physical activity, 2010

METEOR identifier: 396450

Registration status: Community Services (retired), Superseded 04/04/2011

**Description:** Proportion of Australians by level of physical activity, by Indigenous status.

Rationale: Participation in sport, recreation or fitness has the potential to lead to improvement

in long-term health, and physical and mental wellbeing. Long-term health gains obtained from increased participation by Indigenous Australians in such activities

will contribute to closing the gap in life expectancy.

Indicator set: National Indigenous Reform Agreement (2010)

Community Services (retired), Superseded 04/04/2011

Outcome area: Indigenous people remain healthy and free of preventable disease

Indigenous, Standard 21/07/2010

Data quality statement: National Indigenous Reform Agreement: P07-Level of physical activity, 2010 QS

Community Services (retired), Superseded 04/04/2011

### Collection and usage attributes

Population group age

from:

Persons aged 15 years and over

Computation description: Presentation: Percentage (crude and age standardised), rate ratios and rate

difference including confidence intervals and relative standard errors for

percentage.

**Computation:** 100 x (Numerator ÷ Denominator)

**Numerator:** People aged 15 years and over by level of physical activity (sedentary, low,

moderate, high)

# **Accountability attributes**

Organisation responsible for providing data:

In the provision of data and quality statement the Australian Bureau of Statistics (ABS) will have regard to the data quality assessments in the Aboriginal and Torres Strait Islander Health Performance Framework (HPF) that are relevant to this indicator.

Further data development / Specification: Long-term collection required:

The 2010-11 NHS and NATSIHS is looking to extend this data item to collect data on physical activity in remote areas and among children.

Mechanisms for reporting annually in between surveys could be explored.
